

Tau Sigma Chi

of

Petitions

Delta Sigma Pi

TO THE GRAND COUNCIL OF THE INTERNATIONAL
FRATERNITY OF DELTA SIGMA PI

Gentlemen:

We, the members of the Tau Sigma Chi colony of Troy State College do hereby petition for a charter in the International Fraternity of Delta Sigma Pi to be granted to the campus of Troy State College, Troy, Alabama.

Having organized this petition to be presented to the International Fraternity of Delta Sigma Pi, we wish to pledge ourselves to uphold the Constitution and By-Laws of the Fraternity. We pledge to adhere to the traditions and to observe faithfully the rules and regulations set forth by the Fraternity.

We earnestly request this affiliation and pledge ourselves to observe the regulations of the International Fraternity of Delta Sigma Pi and to uphold and further its ideals and traditions.

Our signatures bear witness to this petition:

Dale Neundorff - President
John W. Roy - Senior Vice President
Cenny Crumpler - Vice President
Wayne Dean - Chancellor
Max Davis - Cor. Secretary
Douglas Reamer - Secretary
Buford Dorin - Treasurer

APPRECIATION

We, the brothers of Tau Sigma Chi, take this opportunity to express our appreciation for the continuing efforts and support shown us by Dr. Eason, our advisors, and the entire faculty. It has been through your efforts that this fraternity has been made possible. With your help we have been able to accomplish many goals and establish a strong foundation for Tau Sigma Chi. Now as Tau Sigma Chi pledges to the International Fraternity of Delta Sigma Pi on December 7, 1967, in hopes of receiving a national charter in the near future, we are sincerely grateful for your making this endeavor possible. We are all anxiously anticipating the granting of a charter of Delta Sigma Pi on the campus of Troy State College.

Thank you,

for the Brothers of Tau
Sigma Chi

Dale Neuendorf
Dale Neuendorf, President

HISTORY OF TAU SIGMA CHI

In the fall of 1966, shortly after the beginning of the Fall Quarter, John W. Wagner, Jr., a senior majoring in Marketing, approached Mr. Steve Leverton, an instructor of Business, concerning the establishment of a business fraternity on the campus of Troy State College. Mr. Leverton stated that he was a member of Delta Sigma Pi while attending the University of Alabama and would be very interested in the idea of forming a chapter at Troy State. Mr. Leverton selected a committee of students from his classes whom he thought might be interested in the plan. This committee was made up of John Wagner, Frank Gorman, Freddie Biggs, Billy Joe Stinson, and Wayne Brooks. Mr. Leverton contacted Mr. Charles L. Farrar, Executive Director of Delta Sigma Pi, telling him of the interest on the Troy State campus. Mr. Farrar stated that he would be in the Troy area in October and would like to meet with the committee on October 10 to discuss the possibility of organizing a chapter at Troy State. In the next few months, the committee interviewed students in the business department to see if there was enough interest to warrant further action.

A meeting was called for Monday, January 23, 1967, for all students interested in forming a business fraternity. John Wagner conducted the short meeting at which there were forty

business majors who said that they would be interested in organizing a business fraternity. An organizational committee was formed from the group attending the meeting to begin work on the formation of the local fraternity.

At the next meeting, officers were elected and committees were appointed for the purpose of drawing up a school constitution and beginning work on this petition.

During the remainder of the spring of 1967 much activity took place within the fraternity. Several dinner meetings were held at which guest speakers were honored, and where they made most interesting talks and demonstrations. Several assembly programs sponsored by Tau Sigma Chi were held at the college honoring speakers such as Mr. Charles Woods, candidate for governor of Alabama, and self-made multi-millionaire in business since 1950.

During the fall of 1967, Tau Sigma Chi has made outstanding progress. Our constitution was accepted by the student senate and the college, and Tau Sigma Chi has received recognition and endorsement from President Ralph Adams, Dean Annette Gibbs, and Dr. Thomas Eason. Tau Sigma Chi has sponsored a Thanksgiving "turkey shoot" which was a tremendous success. This money was used to help prepare this petition.

It is through the continued efforts of Dr. Eason, our advisors, and all members of Tau Sigma Chi that we are able to take this big step and pledge our colony to Delta Sigma Pi on this day, Thursday, December 7, 1967.

DINNER MEETINGS

Dinner meetings were enjoyed by all members several times last year and this year. At each meeting we honored a guest speaker who gave a most interesting talk.

GUEST SPEAKERS

Many different speakers in many walks of life were honored at our numerous dinner meetings. Pictured here is Mr. Charles Hudgings, Manager of Travelers Insurance Company, Atlanta, Georgia

Mr. Charles E. Ferrer
Executive Director
International Fraternity of
Delta Sigma Pi
137 South College Avenue
Cincinnati, Ohio

Dear Charles:

CORRESPONDENCE

Can you come to Troy on the morning of Tuesday, October 11
rather than on Monday? Bill Wagner, the student who origi-
nally approached me with the idea of organizing a profes-
sional Fraternity at Troy, will be out of town on Monday.

Mr. Joe Green is a member of Delta Sigma Pi and hopes to
meet with me when you come to Troy. Mr. Tom Mason, our
acting department head, feels that a professional fraternity
would be a fine addition to our department's program. I
would be a fine addition to our department's program. I
would be a fine addition to our department's program.

Since Bill Wagner at the "idea man" behind this, I hope
that he'll be able to meet with you however, if Monday's
the only convenient time for you, Mr. Green, Mr. Mason,
and I will be there then.

Respectfully,

Steve S. Interline

Dear Charles:

Can you come to Troy on the morning of Tuesday, October 11 rather than on Monday? Bill Wagner, the student who originally approached me with the idea of organizing a professional fraternity at Troy, will be out of town on Monday.

Mr. Joe Creek is a member of Delta Sigma Pi and hopes to meet with us when you come to Troy. Mr. Tom Eason, our acting department head, feels that a professional fraternity would be a fine addition to our department's extracurricular organizations; he'll also be here to talk with you.

Since Bill Wagner is the "idea man" behind this, I hope that he'll be able to meet with you; however, if Monday's the only convenient time for you, Mr. Creek, Mr. Eason and I will be here then.

Fraternally,

Steve C. Leverton
Instructor of Business

February 22, 1967

Mr. Steve Leverton
Business Department
Troy State College
Troy, Alabama

Dear Mr. Leverton:

I am happy to report to you and the five students who signed the request of February 9, that the Student Affairs Committee has given approval for the establishment of Delta Sigma Pi on the Troy State campus.

The Student Affairs Committee indicated that your meetings should proceed as you planned and that your constitution be "drawn up" as soon as possible. As soon as your constitution is completed, it should be submitted to the Student Government Association Senate for approval. After the constitution has "cleared" the Student Government Association, it will be referred to the Student Affairs Committee for final adoption and approval by the college administration.

You are to be congratulated on your attempt to establish this professional fraternity, and I offer you and the students my services, as well as the services of this office, in any way we can assist you.

Sincerely yours,

Annette Gibbs
Dean of Students

Troy, Alabama

Dear Mr. Tuggle:

Perhaps you are already aware that Delta Sigma Pi will be holding our 26th Grand Chapter Congress (national convention) at the Edgewater Gulf Hotel in Biloxi, Mississippi, on August 22-25, 1967.

In view of the fact that you have already indicated a desire to affiliate with us, we feel that it would be advantageous to your fraternity to attend this meeting to see, first hand, Delta Sigma Pi on a national scale. We are sure that you would benefit immensely from this meeting.

Accordingly, we would like to cordially invite two members of Tau Sigma Chi to be our guests at the 26th Grand Chapter Congress of Delta Sigma Pi. Since it is not too great a distance from Troy to Biloxi, we hope that you might arrange your own transportation to the meeting. We would provide you with a twin-bedroom and your meals to include lunch and dinner during the duration of the convention.

So that you might have additional information about the convention, please find enclosed a copy of the program and an advance reservation form which we would appreciate your returning to us if you can join us. We might also encourage you to select two of your best workers, preferably officers to attend.

We certainly hope that you can join us and look forward to hearing from you.

Sincerely yours,

Executive Director

Dear Mr. Roy:

I just learned yesterday from Dale Nuerendorf, President of Tau Sigma Chi at Troy State College, that you are planning to attend the 26th Grand Chapter Congress of Delta Sigma Pi in Biloxi, Mississippi, next month, August 22-25. We are certainly pleased to know that you have accepted our invitation to be our guest at our 60th Anniversary Convention and hope that nothing will prevent you from attending.

In order that we may help you complete your reservation with the Edgewater Gulf Hotel, would you kindly complete the enclosed advance registration form and return it to us so that we can send you some additional information for completing your reservation?

We feel that we have an outstanding program planned for our convention and we are confident that it will be very helpful to you and Tau Sigma Chi in planning for your activities this fall. We also feel certain that you will thoroughly enjoy being with us for our convention.

Sincerely yours,

Executive Director

Dear Mr. Roy:

Thank you very much for your letter of July 20 regarding the activities of Tau Sigma Chi at Troy State College. Perhaps by now you have already received my letter of July 19 inviting you to attend our Grand Chapter Congress in Biloxi, Mississippi. Since this was mailed to you at your home in Pensacola, I assume that you have not yet received it. Since you have indicated a desire to attend the Grand Chapter Congress, will you kindly complete the enclosed advance registration form and return it directly to us and, in turn, complete the hotel reservation card and mail it directly to the Edgewater Gulf Hotel?

We are certainly looking forward to having you in attendance at our Grand Chapter Congress and discussing with you personally the procedure for obtaining a chapter charter of Delta Sigma Pi for Tau Sigma Chi.

Sincerely yours,

Executive Director

October 10, 1967

Mr. Charles L. Farrar, Executive Director
International Fraternity of Delta Sigma Pi
The Central Office
330 South Campus Avenue
Oxford, Ohio 45056

Dear Mr. Farrar:

The purpose of this letter is to bring you up-to-date on our colony of Delta Sig here at Troy State College. We have approximately fifteen members returning from last year and about fifty new members. We have had two meetings and are planning a dinner meeting on Wednesday, October 25. This will be to formally welcome our new members and hopefully announce the completion of our petition, which we hope can be submitted by the middle of November. We have contacted our District Director, James C. Whatley, Auburn, Alabama, in hopes that he will be able to come down and speak to us at our meeting. We also have several projects in planning which we will inform you of as soon as they develop.

The officers for this year are:

President-----Dale Neuendorf
Senior Vice President-----John Roy
Vice President-----Denny Crumpler
Chancellor-----Wayne Dean
Recording Secretary-----Douglas Reaves
Corresponding Secretary-----Max Davis
Treasurer-----Buford Gavin

Please send us information concerning dues and financial obligations to the International Fraternity and The Central Office. Also, send information regarding pins, etc.

If this information could be sent by our next meeting it would be greatly appreciated.

Sincerely,

Dale Neuendorf, President

Dear Mr. Whatley:

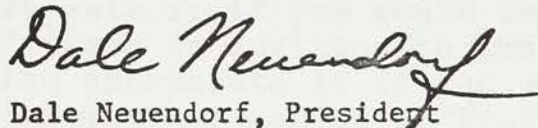

As you may know, a group of enthusiastic business majors, in conjunction with the business department, have formed a colony of Delta Sigma Pi here at Troy State College. We now have approximately fifty members and are in the process of completing our petition for submission to the central office.

We are planning our first dinner meeting of the year for Wednesday, October 25, at 6:30 p.m. at the Holiday Inn. The purpose of this meeting will be to formally welcome in our new members and recognize all of the charter members. We were looking for an outstanding speaker and distinguished guest when your name was mentioned to us by Max Barnett, Jr. and also when we recognized it in the last issue of The Delta Sig.

It would highly please us to have you come and speak to us about Delta Sigma Pi and particularly Beta Lambda chapter.

Your immediate reply of acceptance will be greatly appreciated.

Sincerely,

Dale Neuendorf, President

Mr. Dale Neuendorf
Box 229 - Troy State College
Troy, Alabama

Dear Dale:

I would like to thank you for your letter of October 10 regarding the progress which Tau Sigma Chi is making at Troy State. It certainly seems that you are getting well organized and on the road to a very successful year.

The national initiation fee for undergraduate members is \$25.00 and \$10.00 for faculty members. In addition to this, each undergraduate is required to lease a fraternity badge. The cost of these badges vary depending on the type badge desired by the member. Enclosed is a Chapter Supplies and Insignia Price List covering the various type badges we have available. I believe that Troy State operates on the quarter system and if this is the case, the dues for undergraduate members are only \$4.00 per member per quarter, discounted to \$3.67 if paid within 30 days after receipt of the invoice. There will be no dues required for your members following the quarter in which your chapter is installed.

I trust this answers your questions, however, if it does not please let us know. I would appreciate it if you would send us the mailing addresses for your officers in addition to that of your faculty advisor. I would also appreciate it if you would keep us informed as to the progress you are making at Troy State.

Sincerely yours,

Executive Director

Mr. Max Davis
1222 North 3 Notch Street
Troy, Alabama 36081

Dear Mr. Davis:

Thank you very much for your letter of October 25 and the list of the officers of Tau Sigma Chi and their addresses.

I presume that you have the sample petition, copies of our National Constitution and Part V of the Manual for Chapter Officers which were mailed to Richard B. Stewart last spring. These you should find most helpful in drafting your bylaws and preparing your petition for affiliation with Delta Sigma Pi. If you do not have these, let us know and we will send you additional copies.

I am contemplating a trip to the South in early December in connection with the installation of our Eta Iota Chapter at Nicholls State College in Thibodaux, Louisiana. At that time I would also like to visit Tau Sigma Chi and wonder if Thursday, December 7 would be a suitable day for this visit? In the event that it is not, it is unlikely that I would be able to visit with you until after the first of the year, or perhaps even later. I don't know whether or not you would be ready to be pledged to the fraternity then, but I would appreciate hearing from either you or Dale Neuendorf about the visit which I have suggested and whether or not you will want to consider pledging at that time?

Sincerely yours,

Executive Director

November 28, 1967

Mr. Charles L. Farrar
Executive Director
Delta Sigma Pi
330 South Campus Avenue
Oxford, Ohio

Dear Mr. Farrar:

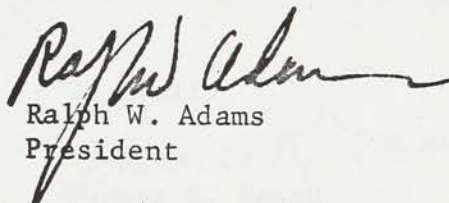

As you know, a group of faculty and students at this college hope to have a Chapter of Delta Sigma Pi established on our campus. It is my understanding that this colony of Tau Sigma Chi will be prepared to pledge on December 7, when you will be here visiting with the group. I want you to know that the effort to establish a Chapter of this fine organization here has my wholehearted endorsement, and it is my strong recommendation that the request for the authority to establish such a chapter be granted.

You may be assured that such a Chapter would have strong support from the administration of the college. It is my belief that our Department of Business is large enough to support a very successful Chapter. In addition, the Department of Business is one of the fastest growing segments of the college. The very high quality of instruction and high caliber of the faculty in the Department of Business can be ascertained easily.

It is my hope that every consideration will be given to the request and that a Chapter of Delta Sigma Pi will be established on our campus in the near future.

With very kind regards, I am

Sincerely,

Ralph W. Adams

November 28, 1967

Mr. Charles L. Farrar
Executive Director
Delta Sigma Pi
330 South Campus Avenue
Oxford, Ohio

Dear Mr. Farrar:

It is my pleasure to write this letter in support of the efforts of a number of Troy State College students toward establishing a chapter of Delta Sigma Pi on this campus.

Several factors augur well for the success of a chapter at Troy State. First, the young men who are promoting this organizational effort are intelligent and aggressive. Second, the Department of Business is sufficiently large to support a chapter now, and substantial growth of the College is assured. Third, the location of and atmosphere on this campus underscore the need for, and success of, a chapter. Finally, all of our faculty members are in full support of the efforts of Tau Sigma Chi and the enthusiasm and cooperation of this growing group is unquestionable.

As Head of the Department of Business, I am aware of the benefits of the academic, professional, and social programs of Delta Sigma Pi, both to its members and to the college where it is located. Without reservation, I recommend to the Fraternity the establishment of a chapter at Troy State College and pledge my support to the chapter at all times.

I will be looking forward to meeting you on December 7 when Tau Sigma Chi pledges.

Cordially,

A handwritten signature in cursive script that reads "Thomas R. Eason".

November 28, 1967

Mr. Charles L. Farrar
Executive Director
International Fraternity of
Delta Sigma Pi
330 South Campus Avenue
Oxford, Ohio

Dear Mr. Farrar:

I would like to strongly recommend to you that a chapter of the International Fraternity of Delta Sigma Pi be established at Troy State College in the Department of Business. Dale Neuendorf, President of Tau Sigma Chi, told me that our students hope to pledge at their dinner meeting during your visit here on December 7.

The Department of Business at Troy State College is now sufficiently large to support a chapter of Delta Sigma Pi. At the present time, we have a business student enrollment of approximately one thousand and an expected substantial increase each year for the foreseeable future, we certainly do not anticipate a problem insofar as enrollment is concerned.

As I am sure you are already aware, a fine nucleus of students is organized on the campus as Tau Sigma Chi. The group has two strong faculty advisors, Mr. Joseph Creek and Mr. Marshall Copeland. Dr. Thomas Eason, Head of our Department of Business, is also in full support of the efforts of these students.

The establishment of a chapter of Delta Sigma Pi has my strong and enthusiastic support.

Sincerely yours,

Annette Gibbs
Dean of Students

MAY 15, 1967

Department of Business Administration
Troy State College
Troy, Alabama

THE CITY OF TROY, ALABAMA

Troy is the County Seat and the largest city in Pike County. It is situated forty-eight miles south of Montgomery, the State Capital, and is easily accessible to all sections of the Southeast. Two Federal Highways pass through the city, 231 and 29; also two State Highways, 15 and 10.

Troy was incorporated in 1843, by an act of the Legislature of Alabama, but there is no record of any city officials until 1868, when Urbal L. Jones was elected Superintendent.

Troy barely missed being named Zebulan, so legend has it. The place was called Deer Stand Hill and a citizens' meeting was called to select a more dignified name. One man suggested the name of Zebulan, but when they tried to write the name, it turned out that no one in the crowd could make a capital "Z" so the name was abandoned. In the crowd was a man from Troy, New York, who suggested the name of the town and it was agreed upon. The exact date of the selection of the name of the town is not known, but records in the Probate Office of Pike County show that the name of Troy was used as early as 1838.

The first railroad to Troy was built in 1870. It was an extension of the old Mobile and Girard Railroad, now the Central of Georgia, and extended from Columbus, Georgia, to Troy. This

railroad opened up a large territory to the South extending into what is now known as Covington, Crenshaw, Coffee, Dale, and Geneva Counties. The second railroad was built in 1889. It was known as the Alabama Midland, now the Atlantic Coast Line. This railroad was promoted by some of Troy's enterprising and far-sighted businessmen. These two railroads moved Troy from the exclusion of the hills, and started it on a steady growth, which it has maintained through the years. These roads opened up vast areas of fertile lands and Alabama was given a new agricultural empire.

The Three Notch Road, completed in 1824, passes through Troy, and was marked with three notches cut in trees along the road. It was built as a military emergency road and was 233 miles long extending from Fort Bainbridge, Georgia, on the Chattahoochee River to Pensacola, Florida.

Thirty acres of land, located near the center of what is now Troy, were donated by John Hanchey and John Croskey. The first Court House, which was a wooden structure, was built in 1839 on a square laid off approximately 100 yards each way. It was later torn down and built with brick. In 1898, it was remodeled and enlarged. The Court House remained in the center of the square until 1953 when a new and modern one was built about two blocks distance to the west of the old site on West Church Street, and the old building was razed.

Troy has never been what is known as a "boom town", but has grown steadily and every census has shown an increase in population. Today, after more than a century of existence,

Troy, transformed by the touch of time, with a population, including near-by outlying districts, of approximately 14,000, finds itself a growing city with every modern convenience and luxury.

Troy has a splendid system of public schools with an enrollment of about 3,000. Charles Henderson High School is among the leading schools in the state in athletics and scholastic ratings. Troy State College, with an average enrollment of about 3,000 students, is located in the Southeastern section of the city, and the campus is located one mile from the business district. The site includes more than one dozen buildings staffed with about 425 people, including teachers and other employees - clerical, maintenance and domestic help. Memorial Stadium is located on the east end of the campus. The College provides a four-year course with Bachelor of Arts and Bachelor of Science degrees, and a graduate division which confers the Science Degree in Education.

Troy has an active American Legion and Auxiliary, VFW, and Auxiliary, Chamber of Commerce, Rotary, Kiwanis, Civitan, Lions, and Jaycees Club and Jayceettes; Masons, Eastern Star, Shrine Club, Quarterback Club, B. & P.W., and many women's study and garden clubs; sororities and professional organizations for the young people; Concert Association, Dixie Youth League, Babe Ruth Baseball, Boy and Girl Scouts, Pee Wee Football, 4-H Clubs and others.

There are two modern hospitals in Troy with a combined capacity of over 100 beds. These are attended by ten physicians and about 75 nurses.

Troy is located near the center of Pike County and is surrounded by good farm lands. The main income to farmers is from cotton, peanuts, corn, hogs, cattle, and poultry. The economy of Troy is divided between farming and small manufacturing. Industries include two shirt factories, a crate company, a furniture parts manufacturing concern, a pecan processing plant, a meat packing plant, a sash and door manufacturer, two large construction companies, a chemical corporation, a truck and trailer body manufacturer, a feed processing plant, and several smaller industries.

Two strong banking institutions serve Troy and this section of the State. They are the Troy Bank and Trust Company, and the First Farmers and Merchants National Bank. Troy also has the distinction of never having had a bank failure.

Troy has one radio station, WTBF, with 5000 watts, and is a Mutual Broadcasting affiliation. There is an afternoon and Sunday newspaper, The Troy Messenger and Herald. Television reception in this area is good with reception from channels in Montgomery, Dothan, Mobile, Columbus, Georgia, and also from Birmingham.

A division of the State Highway Department, employing approximately 170 people, is located in Troy with supervision over the southern part of the state.

Troy has eleven churches including two Methodist, four Baptist, and one each of Presbyterian, Catholic, Church of Christ, Church of God, and Episcopalian.

The Alabama Baptist Children's Home, owned and operated by the Baptists of Alabama, is located on Elm Street inside the city limits. The institution houses approximately 250 children, employees, and administrative staff.

Troy has several motels and good restaurants with excellent accommodations and reasonable rates. There is a beautiful Country Club located near the city limits on 120 acres of land with an 18-hole golf course, swimming pool, and fish lake. The town is only five miles from the State Conservation Department's Public Lake and there are numerous other ponds and streams with good fishing. Troy is only 125 miles from the Gulf of Mexico. It has two theatres and a skating rink. The College also has a 9-hole golf course.

The normal mean temperature for this section is 66 degrees F. and the normal precipitation is 54.26 inches.

The college experienced an enrollment increase from 870 in 1951 to 1,471 in 1965. Projected enrollment figures indicate an enrollment of 1,800 by 1970.

The college experienced an enrollment increase from 870 in 1951 to 1,471 in 1965. Projected enrollment figures indicate an enrollment of 1,800 by 1970.

General Education

A large part of the college's first two years of work is made up from a broad selection of courses from several different disciplines. These courses are usually referred to as general

TROY STATE COLLEGE

1887 - 1967

History of the Colleges

Troy State College came into existence as the Troy State Normal School by Act of the Alabama Legislature on February 18, 1887. Its name and status were changed several times through the years. In 1929 the State Board of Education gave the school the name and status of State Teachers College, and in 1931 the College granted its first B. S. Degree. The College originally occupied the buildings now known as the Troy Public Library and the Edge Hospital near the business section of Troy. Because of encroaching industries and increasing enrollment a change was necessary. In 1930 the College moved to its present site in the southeast section of Troy. In 1957 the Alabama Legislature changed the name to Troy State College, and the State Board authorized the Masters Degree program.

The college experienced an enrollment increase from 899 in 1953 to 2,691 in 1965. Projected enrollment curves indicate an enrollment of 4,500 by 1970.

General Education

A large part of the student's first two years of work is made up from a broad selection of courses from several different disciplines. These courses are commonly referred to as general

education, and they are chosen in such a way as to give the student a well-rounded background and a basis for further study.

Teacher Education

It is part of the philosophy of the college that the public schools of the State are the most important agency ever developed by man for the training of citizens and the protection and promotion of the democratic way of life. And it is a responsibility of Troy State College to educate teachers for the public schools.

Students desiring to become teachers should take either the Bachelor of Arts Degree in Education, the Bachelor of Science Degree in Education, or the Bachelor of Music Education Degree.

Arts and Sciences

A strong and growing program of arts and sciences is maintained, offering the Bachelor of Arts degree and the Bachelor of Science degree, with a choice of majors from nine different subject matter areas for students desiring the broad background of a liberal arts degree as a basis for more advanced training or for further professional work in law, medicine, engineering, and the like.

Business Administration Department

The Business Administration Department of the college has grown in recent years until it now has the largest enrollment among the nine departments. Graduates from this program find employment in major industries in business and in teaching

positions in the South and elsewhere.

The Graduate Division

The graduate program is organized to provide advanced study leading to the Master of Science Degree in Education with minors available in English, history, physical education, and science. It offers a fifth year of training for teachers and administrators in the elementary and secondary schools of Alabama. Admission to the graduate program is based upon graduation from a standard four-year college with courses and grades acceptable to the admission committee.

The Laboratory School

The college maintains a laboratory school on the campus with grades from one through six. The Laboratory School is organized in the Department of Education and Psychology. Many of the majors in elementary education do their student teaching in this school. Faculty members who live near the campus are entitled to enroll their children in the Laboratory School by filing application with the Director.

A modern high school with new and up-to-date buildings and facilities is located adjacent to the college campus. Secondary student teaching is done in this school and in other high schools in the area.

Degrees

The college offers six degrees:

Bachelor of Arts Degree
Bachelor of Science Degree
Bachelor of Arts Degree in Education
Bachelor of Music Education
Bachelor of Science Degree in Education
Master of Science Degree in Education

Academic Departments

- a. Art
- b. Business
- c. Classics
- d. Education and Psychology
- e. English
- f. Health and Physical Education
- g. History
- h. Mathematics
- i. Music
- j. Philosophy and Religious Studies
- k. Science

Pre-Professional Courses

Troy State College offers pre-professional programs to students who plan to obtain degrees in medicine, law, nursing, engineering and other professional fields.

The student is advised to confer with or write to one or more of the deans or registrars of the particular professional schools in his field prior to registration at Troy State to obtain advice on the program to be followed here.

Special advisers are available at Troy State for the following and other fieldsL

Pre-Agriculture	Pre-Optometry
Pre-Engineering	Pre-Home Economics
Pre-Law	Pre-Dentistry
Pre-Nursing	Pre-Veterinary Medicine
Pre-Medicine	Pre-Pharmacy
Pre-Forestry	

Extension Work and Field Work

The College is prepared to offer both on-campus and off-campus extension classes. Except for courses requiring special equipment, any course listed in the catalogue will be offered by extension on demand. In field extension classes a minimum of 15 students is required, and in on-campus classes a minimum of 10 students is required. These classes meet three hours a day, one day a week for ten weeks and give three quarter-hours credit.

Faculty members of the College are available as consultants with problems of curriculum revision, in-service education of teachers, measurement programs, resource-use education, and other educational problems. A nominal fee is charged by the College for consultant service.

Superintendents, supervisors, principals, and groups of teachers desiring extension courses or consultant service should write to the Director of Special Services.

The College does not offer correspondence work.

Ft. Rucker and Maxwell-Gunter Branches

Troy State College maintains branches of the College at Ft. Rucker and at Maxwell and Gunter Air Force Bases. Both undergraduate and graduate degrees may be earned at either of these branches. While these programs were initiated to meet the increasing educational demands on military personnel, the classes are also available to area civilians. These branches are under the supervision of full-time directors.

THE SOUTHEAST ALABAMA
EDUCATIONAL MEDIA PROJECT

The Southeast Alabama Educational Media Project (SAEMP) is an innovative project, approved by the United States Office of Education, funded under Title III, P.L. 89-10. Unique in this region, the SAEMP was written under the provisions of PACE (Programs to Advance Creativity in Education).

The Project is a joint enterprise of the Pike County School Board and Troy State College. Operating under a first-year grant of nearly \$200,000, the SAEMP will serve 106 schools in a seven-county area.

The staff of the Southeast Alabama Educational Media Project will include:

Project Coordinator
Secretary to the Project Coordinator
Project Secretary
Educational Media Specialist
Materials Preparation Specialist
School Library Media Specialist (two)
Media Technician
Graphics Technician
Student Assistants (Three)

Purposes of the Project

(1) To disseminate and encourage the adoption of new educational ideas and practices through training programs and expert consultative services.

(2) To stimulate and assist in development of modern centralized library media services for all schools.

(3) To provide a model for the development of similar

regional centers and programs in other areas of the state.

Participating School Systems

County Systems

Butler
Coffee
Covington
Dale
Pike

City Systems

Andalusia
Brewton
Daleville
Elba
Enterprise
Eufaula
Floral
Opp
Ozark
Troy and Troy State College

The project now offers services to 1742 teachers and 36,649 students.

Staff offices, work and storage area for the project are located on the second floor of McCartha Hall (TSC Library).

Projection

The combined college/regional media center will occupy first level (approximately 30,000 square feet) of the beautiful new \$1,500,000 Educational Resources (Library) Building, construction scheduled to begin early in 1967. Center to include all modern facilities for closed circuit TV, FM radio, graphics, photography, offset printing, random access study stations and audio labs, complete audiovisual services.

STUDENT PERSONNEL SERVICES

Guidance Services

There are a number of services provided for the student by the Office of Guidance Services located in Bibb Graves Hall, room 111. Students may come by the Guidance Services Office or call College Extension 207 for an appointment. The office is open from 8:00 A.M. until 5:00 P.M. Monday through Friday and Saturday from 8:00 A.M. until noon. The services provided by the Office of Guidance Services are available to the student on a voluntary basis. They are as follows:

Personal Counseling. As in any endeavor in today's complex world, many students find personal concerns that interfere with various aspects of their college life. The Office of Guidance Services provides an atmosphere in which students may discuss such concerns freely and confidentially. Counseling, then, is a process whereby a student gains understanding of himself and his opportunities, in order that he may make those adjustments and decisions in situations that confront him now, as well as in the future. It is the purpose of this process to utilize the ability of the student to make his own choices and decisions through better understanding of himself and his abilities and to accept mature responsibility for his choices.

Adademic Advisement. The purpose of this phase of Guidance Services is to assist those students who are having

academic difficulties, those who are indecisive about a major field of study, or those who wish to know how their abilities relate to a certain major field of study. A student's academic choices are usually made after a better understanding of his aptitudes and interests. Many times, academic problems are interrelated with personal and vocational problems, and only after a complete picture of the three areas can a student overcome his academic problems.

Vocational Planning. The Office of Guidance Services assists students in a thorough analysis of interests and aptitudes and any other areas that might equip him to make a better vocational choice. Testing, as well as counseling, is provided in this decision making process. In addition, the Office of Guidance Services provides an occupational information laboratory available to all students so that they may browse and read of possible vocations in their chosen field (qualifications, salaries, nature of work, etc.). This occupational information is available to any student at his convenience without an appointment.

Testing. In addition to individual tests, the Office of Guidance Services administers a number of local, state, and national tests. Among these tests are the American College Tests, Graduate Record Examinations, National Teacher Examinations, and the Teacher Education Examination Program. Information and applications for these tests can be obtained from the Office of Guidance Services or by writing the Director of Guidance Services at Troy State College. The completed registration

forms for any of these tests should be mailed, with the appropriate fee, to the testing company at least one month in advance of the national testing date.

Student Publications

Troy State College student publications, which include the Palladium, the Tropolitan, and the Oracle, are organized under Student Personnel Services.

The Palladium. The college yearbook furnishes a popular literary and pictorial record of college life and it becomes one of the most treasured mementos of the years spent in college. The name Palladium refers to the image of Pallas upon which the safety of ancient Troy was supposed to depend. The faculty sponsors are Miss Pauline Trantum, and Mr. Wallace Waites.

The Tropolitan. The Tropolitan is the Troy State student newspaper. The college newspaper attempts to acquaint the reader with Troy State, to record the history of the college, and to arouse interest in the college's activities and environment. This publication is a member of the Associated Collegiate Press and receives a yearly rating from that organization. Any student desiring to work with the Tropolitan should communicate with the editor. The faculty sponsor is Mr. Wallace Waites.

The Oracle. The Oracle is the Troy State College Student Handbook which is a guide for student life at Troy State. It serves as an introduction to college and all students should be completely familiar with its contents. Copies of the Oracle may be secured from the Student Personnel Services Office.

Student Organizations and Activities

Opportunities for developing initiative, poise, and leadership are provided for students through a variety of organized activities, some of which are described below. Additional information may be secured from Student Personnel Services.

Buildings and Grounds

The site of the College is a tract of 280 acres lying chiefly in the southeastern quarter of Troy, the center of the campus being about one mile from the heart of the city. On this site are 17 college buildings plus the football stadium and the tennis courts.

Thomas E. Kilby Hall, completed in 1937, is a one-story tile and stucco building of the California Spanish type. It houses the elementary Laboratory School and contains six classrooms, an auditorium, and a cafeteria. It is built around a beautiful open court which encloses four large trees and in which there is a concrete stage for open air programs.

Bibb Graves Hall, completed in 1937, is the main classroom and administration building. It is of the colonial style of architecture; and it houses classrooms, laboratories, and administrative offices.

Edward M. Shackelford Hall, completed in 1937, is a three-story building of the same architecture and construction as Bibb Graves Hall. It contains rooms for 220 girls, plus offices, kitchen, dining room, and parlors, and its equipment is modern and complete.

Edgar M. Wright Hall, completed in 1940, contains the offices and classrooms of the Department of Health Education, Physical Education, Recreation, and Athletics. It is a center for recreation, intramural sports, and physical education.

Matthew D. Pace Hall, completed in 1947, is a three-story residence hall for women. It is built in a modified Georgian

style of architecture and is equipped with modern conveniences.

Clarence McCartha Hall, the Library and art building, completed in 1950, houses the library collections, the museum, the Art Department, and several classrooms and offices.

Fletcher Cowart Hall, completed in 1951, is a residence hall for women on the west side of the residence quadrangle. Its structure, size, and appearance are very similar to those of Pace Hall.

Edwin R. Eldridge Hall is the dining room addition to Shackelford Hall. A modern supplement to the regular dining room, it has been in operation since the 1951 Spring Quarter.

Joseph Macon Dill Hall, completed in 1958, is a modern residence Hall designed to accommodate 214 men students.

Charles Bunyan Smith Hall was completed in the fall of 1961. The completed unit includes an auditorium with a seating capacity of 1200, the Student Center, including post office, bookstore and lunch counter, and the music wing consisting of classrooms and offices for the Music Department.

Charles Roderick McCall Hall, completed in 1961, is the building which houses the Science Department and is one of the most up-to-date and completely equipped science buildings in the South.

Auxford Sumner Sartain Hall, completed in 1962, is the new Health and Physical Education Building. The building has seating capacity for 3500 and contains playing courts, classrooms and offices adequate for a modern program of physical education and intercollegiate athletics.

Catherine Collins Gardner Hall, occupied in the fall of 1962, is a modern air conditioned residence hall designed to accommodate 122 women students.

Buildings and Grounds Building, completed in 1962, is a new concrete block structure providing office space and shops for maintenance and operation personnel and the College Security Force.

President's Home, completed in 1962, is a new two-story brick residence of colonial design located in a pine grove near the entrance to the campus and overlooking the main campus.

Lorraine Estelle Hamil Hall, a modern air conditioned residence hall for women completed in the fall of 1963. Modern infirmary facilities are located on the first floor of the building.

James Burns Clements Hall, completed in 1963, is a modern four-story residence hall which provides accommodations for 212 men students.

Alumni Hall, a 550 man residence hall of modern design and facilities was completed in 1966 at the west side of the campus. This building was financed partially through donations from alumni and friends of the college.

The Campus Post Office is located in Smith Hall. Post office boxes are available to all students and faculty members, and incoming mail is received and distributed twice daily.

The College Supply Store is in a large and attractive room of Smith Hall. The supply store furnishes books and school supplies to students at reasonable prices.

The Snack Bar is operated in Smith Hall for the convenience and enjoyment of the students. Regular meals are available at the Snack Bar along with soft drinks, sandwiches, and the like.

The John Wilkerson Observatory was built to house a telescope which was given to the college by a leading citizen of Troy. During clear weather the observatory is open on request to school groups and other interested persons.

The Football Stadium, located at the east end of the campus in a natural amphitheatre, is partially the result of donations and contributions of labor, services, and money by civic minded citizens of the community.

The Swimming Pool. The College has its own swimming pool and bath houses, located at the west side of the campus.

Golf Course and Scenic Driveway. A golf course covering many acres, with nine holes and with a par score of 32, is an important campus feature. There is an attractive driveway around the golf course and the lake. The College Course Golf Club membership fee is \$12.00 a year payable in advance. Students who register for the course in golf will pay only the regular course fees and will be excused from the club fee.

The Tennis Courts, completed in the fall of 1958, are a valuable addition to the physical education facilities of the college.

The Health Center. In order to provide care for the sick, a modern Health Center has been included in Loraine Hamil Hall for women.

The Laboratory School. The Laboratory School provides facilities for student teaching in the six elementary grades. An opportunity for pre-service and in-service teachers to observe a well balanced elementary curriculum in operation is provided by the staff and children of the Laboratory School.

Accommodations for Married Students. The College maintains apartment units on the campus for married students consisting of two bedrooms, living, dining, kitchen area, and bath, unfurnished. Rental is \$27.00 per month, including water and garbage service. Applications for apartments should be addressed to Mr. O. W. Bickel, Superintendent of Buildings and Grounds. Trailer space, including sewer and garbage serve, and water, is available for \$10.00 per month.

Lockers for Commuters. There are commodious lockers in Wright Hall, each equipped with a combination lock and supplied with a towel, for both men and women commuters who would like a place to keep their school supplies and equipment. Showers are available and towel service is provided. Locker rental is \$2.00 for three quarters. Summer Quarter rental fee is \$1.00.

A COMPREHENSIVE LIBRARY
FOR TROY STATE COLLEGE

The library is presently located in McCartha Hall. A new Educational Resource Center combining traditional library services with educational media is under construction.

Materials, equipment and services available in the library include many forms of printed and non-printed materials, media and equipment needed to assist faculty and students in achieving the educational aims of the college.

The following items give general information and principal areas of library use:

- Open Stack Policy for General Book Collection
- Reserve Books
- Xerox Photocopy Service
- Information Desk
- Reference Books
- Periodicals and Newspapers
- University and College Bulletins
- Documents
- Audio-Visual Materials and Equipment
- The Listening Center
- Audio-Visual Services
- Production of Instructional Materials
- Duplicating and Publishing Services
- The Public Catalog
- Bibliography Collection
- Interlibrary Loan

EDUCATIONAL RESOURCES (LIBRARY) CENTER

The Educational Resources (Library) Center is scheduled to begin construction early in 1968. The Center will include all modern facilities for closed circuit TV, FM radio, graphics, photography, offset printing, random access study stations and audio labs; complete audio-visual services.

AERIAL PHOTOGRAPH

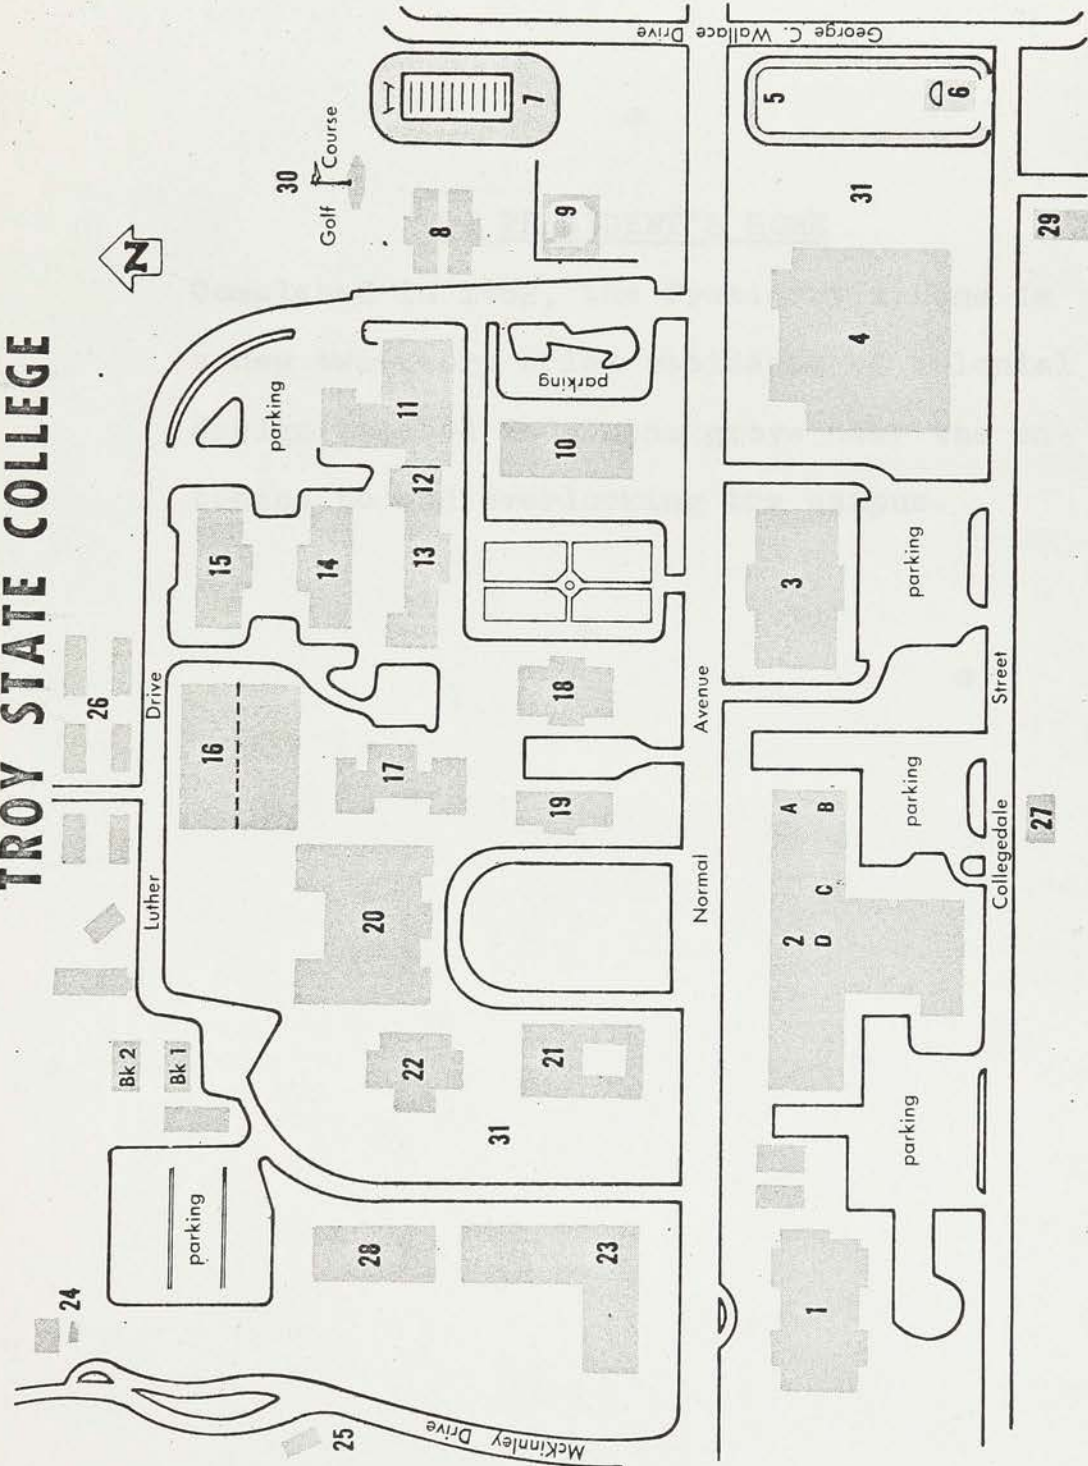

This photo of Troy State College was taken recently and shows the expanding growth of the college by the construction of Alumni Hall and the new Dining Hall in the lower left corner.

THE PRESIDENT'S HOME

Completed in 1962, the President's Home is a new two-story brick residence of colonial design located in a pine grove near the entrance to and overlooking the campus.

BIBB GRAVES HALL

Bibb Graves Hall was completed in 1937.
It is the main classroom and administration building. It is of the colonial style of architecture; and it houses classrooms, laboratories, and administrative offices.

ALUMNI HALL

A 550 man residence hall of modern design and facilities, Alumni Hall was completed in 1966 at the west side of the campus.

This building was financed partially through donations from alumni and friends of the college.

CHARLES BUNYAN SMITH HALL

Charles Bunyan Smith Hall was completed in the fall of 1961. The completed unit includes an auditorium with a seating capacity of 1200, the Student Center, including post office, bookstore and lunch counter, and the music wing consisting of classrooms and offices for the Music Department.

AUXFORD SUMNER SARTAIN HALL

Auxford Sumner Sartain Hall was completed in 1962. It is the new Health and Physical Education Building. The building has a seating capacity for 3500 and contains playing courts, classrooms and offices adequate for a modern program of physical education and intercollegiate athletics.

BUSINESS ADMINISTRATION DEPARTMENT

The Business Department is one of the newest of nine departments. This probably accounts for the fact that no business courses are included in the 81 hour requirements for Freshmen and Sophomores.

As late as 1954 the Department had only four business education majors in its graduating class. During the fall quarter of 1960, a total of 438 business majors were enrolled. This approached twenty-five per cent of the college enrollment. Approximately one out of six of these were seeking teaching degrees; the others were in some phase of business administration.

Since the Business Department was added to the college curriculum during the year of 1946-1947, it has grown in enrollment to 950 during the fall quarter of 1967. This is 33.4% of all students in the college.

At the present time the Business Department has fifteen full-time and two part-time instructors.

The Business Administration Department provides for two degrees, the Bachelor of Science and the Bachelor of Science in Education. The Business Administration Department offers the following curriculum leading to the degree of Bachelor of Science: Accounting, Economics, Marketing, Secretarial Science, and General Business Administration. The Business Education major meets the requirements for the Bachelor of Science in Education.

Business Administration Major

The following core courses are required for every Business Administration student taking the Bachelor of Science degree. In addition to the Business Administration core requirements, the student seeking the Bachelor of Science degree must choose a major in Accounting, Economics, Marketing, Secretarial Science, or General Business Administration. The student must comply with the general education requirements. The additional twenty-one hours required for graduation must be taken in a department other than the Business Administration Department. It is not necessary to take these twenty-one hours in the same Department.

Business Administration Core

Accounting	10 hours
Economics	10 hours
Principles of Management Organization	5 hours
Principles of Marketing	5 hours
Business Law	10 hours
Money and Banking	5 hours
Business Statistics	5 hours
Research Seminar in Business	<u>1 hour</u>
Total	51 hours

General Business Administration

The student taking a General Business Administration major must take the Business Administration core requirements plus 45 hours in Business Administration approved by Adviser; which must include Corporation Finance, Business Communication and Report Writing.

Business Administration Minor

The courses for a business administration minor may be selected in any one of the major areas of general business administration, accounting, economics, marketing, or secretarial science, but must include the following accounting and economics.

Accounting 191, 192	10 hours
Economics 251, 252	10 hours
Approved Electives	<u>7 hours</u>
Total	27 hours

MAJORS

Accounting

The purposes of Accounting are to serve as a language for communication in an intelligent manner the financial data about a business to those who have an interest in interpreting and using it, and to have at hand useful tools for analyzing, controlling, and planning the operations of a business.

Our accounting program is designed for individuals who have elected accounting as their major in the Business Administration program. The accounting program will aid in the development of businessmen. It will help the students gain

insight into the operation, function, and internal control of a business. The program will promote good business habits, including neatness in records and reports and accuracy in problems pertinent to any business situation. It will aid in the development of critical thinking, help students to base judgments on facts, and render a valuable service by teaching students the necessity of accepting responsibility and meeting obligations promptly.

The present trend in enrollment in the accounting program can be identified with an increase. This trend has increased from approximately 100 students enrolled in the accounting program in 1958 to approximately 320 students in 1967.

Economics

The area of Economics in the Business Department is designed to educate the students of Troy State College in Economic principles. The courses are designed to allow students to comprehend positive economic problems and, in addition, there is direct effort expended to investigate possible solutions. This area has the major objective of creating within the students the desire for further inquiry, investigation and understanding of problems which affect each human being in our essentially economic society.

Other objectives are to develop logical thinking, describe our economic institutions, set the problems of the American economy in historical perspective and meet graduate school requirements and train professional economists.

The acquisition of a mental training and a body of knowledge which will be of use in a business career is a common motive for undertaking the study of economics. Economics, as such, does not propose to be a training in business methods or administration but it does give two things, useful facts about the real world and a technique of thinking which allows a broader point of view and a chance for a person to see his own relationship to the real world.

Marketing

Essential to the growth of our prosperity is an ever-increasing emphasis on the art and thoughts of marketing. For in this area, which includes advertising, selling, and the distribution of the products of industry to the ultimate consumer, may well lie the success or failure of our efforts to keep America economically strong.

The problems of marketing have become even more pressing during the past few years. Intelligent direction of such marketing enterprises cannot be undertaken without thorough knowledge of marketing fundamentals, and without true appreciation of the social, economic, and political environment in which the business of marketing must operate. A program of training directed toward the development of a higher degree of intellectual and professional competency is, therefore, essential. It is not the aim of the area of marketing only, but of the entire Business Department, to provide a program of professional education at the college level to train young men and women for positions of responsibility in marketing and other businesses.

Courses Offered in the Business Department

175. Principles of Management. Five class periods per week for five credit hours per quarter. A course in general management designed to acquaint the student with basic concepts and principles applied to the functions of planning, organizing, and controlling a business enterprise.

191, 192. Principles of Accounting. Five lecture hours per week for five credit hours per quarter. Modern accounting theory and practices as applied to sole proprietorships, partnerships, and corporations.

250. Basic Economics. Three class periods per week for three credit hours per quarter. Not open to business majors for credit. An analysis of the fundamental economic principles operating in the American economic system and an introduction to alternative economic systems.

251, 252. Principles of Economics I and II. Five class periods per week for five credit hours each quarter. An analysis of economic value (factors determining supply, demand, and price), the distribution of income, the theory of national income, and current economic problems.

261. Principles of Marketing. Five class periods per week for five credit hours per quarter. A general survey course structured around the functional areas of marketing activity within the business firm: buying, selling transporting, storing, standardization and grading, financing, risk taking, and market information.

271. Insurance. Five class periods per week for five credit hours per quarter. This course is devoted primarily to the study of economics and social benefits of insurance with consideration of life, property, and business risks.

280. Personal Typewriting. One class period and one lab period per week for one credit hour per quarter. The course will deal with the essentials of typewriting as needed for personal use. The course content will include the teaching of the keyboard, the setting up of letters, research papers, term papers, and other problems as needed for personal use. Speed will not be stressed in this course.

281. Elementary Shorthand. Five class periods per week for four hours credit. Basic vocabulary and skills of shorthand. Assignments in transcription through use of tapes. Not open to those who have high school credit in shorthand.

284. Elementary Typewriting. Five class periods per week for four hours credit per quarter. This is a beginning course in typewriting. Not open to those who have high school credit in typewriting.

286. Intermediate Typewriting. Five class periods per week for four credit hours per quarter. Continuation of skill development, introduction to business forms, business letter writing, tabulation and manuscript typewriting, and office reports.

351. Development of Economic Thought. Five class periods per week for five credit hours per quarter. A study of the development of economic ideas from the early Hebrew nation to

the economic orders of present day civilization.

352. Corporation Finance. Five class periods per week for five credit hours per quarter. Promotion, organization, and financing of business enterprise; principles underlying selection of business forms; structure and trends of American enterprise system; financial management, emphasis is placed on small medium-sized enterprises.

353. Money and Banking. Five class periods per week for five credit hours per quarter. The principles of money, credit and banking including consideration of monetary systems, foreign exchange, and commercial banking with relation to the Federal Reserve System. Prerequisite: Economics 252.

355. Labor Economics: Five class periods per week for five credit hours per quarter. This is a general introductory course in the field of labor. Emphasis is placed upon psychological and institutional factors as well as upon economic analysis in dealing with the major aspects of such problems as employment, unionism, labor-management relations, and social security. Prerequisite: Economics 252.

357. Price Theory. Five class periods per week for five credit hours per quarter. An intermediate theory course dealing with the determination of prices. Prerequisite: Economics 252.

358. National Income Theory. Five class periods per week for five credit hours per quarter. An intermediate theory course dealing with economic growth and the determination of income, employment and the price level. Prerequisite: Economics 252.

363. Principles of Retailing. Five class periods per week for five credit hours per quarter. A basic survey of retailing. A thorough analysis of the development and present status of the retailing structure with special consideration being given to the major functions of store organization, operation, and current problems. Prerequisite: Marketing 261.

364. Wholesaling. Five class periods per week for five credit hours per quarter. A general survey of the wholesaling structure, organization, management, and operation, and a study of problems and policies of industrial purchasing, programs and policies in industrial marketing with emphasis on the channels of distribution. Prerequisite: Marketing 261.

365. Business Statistics. Five class periods per week for five credit hours per quarter. A study of basic principles and methods of collecting, arranging, analyzing, and interpreting data and the presentation of results in oral and written reports. Emphasis is placed upon the practical value of statistical analysis and the uses that business can make of statistical methods.

371. Business Machines and Key Punch. Five class periods per week for four credit hours per quarter. Developing a skill in and a knowledge of all types of adding and calculating machines and IBM 0026 Key punch.

373. Punch Card Data Processing. Five class periods per week for five credit hours per quarter. The purpose of this course is to teach the function, operating, and board wiring for several different types of data processing machines,

namely, the interpreter, reproducer, accounting, calculator, sorter, and collator.

381, 382. Advanced Shorthand. Five class periods per week for four credit hours per quarter. Improvement of ability to take dictation and transcribe mailable copy. The emphasis in these courses is upon skill necessary to meet occupational standards.

386. Problems in Typewriting. Five class periods per week for five credit hours per quarter. Speed and accuracy in secretarial correspondence are emphasized.

391.392. Intermediate Accounting. Five class periods per week for five credit hours per quarter. This courses provides a review of the fundamental processes of accounting with a thorough analysis of current assets, liabilities, and proprietorship, together with a study of analytical processes. Prerequisite, Accounting 192.

394. Governmental Accounting. Five class periods per week for five credit hours per quarter. A study of municipal and governmental accounting; the preparation and use of budgets, records, and statements. Prerequisite: Accounting 192.

395, 396. Cost Accounting. Five class periods per week for five credit hours per quarter. A study of the principles of manufacturing and distribution cost accounting; material, labor and overhead costs in job order and process cost accounting; and the analysis of costs of distribution and related problems. Prerequisite: Accounting 192.

451. International Trade. Five class periods per week

for five credit hours per quarter. An analysis of the theoretical principles underlying international trade with an application of these principles to recent historical developments and to current national policies.

453. Public Finance. Five class periods per week for five credit hours per quarter. A course covering the principles of taxation, American tax practice, public expenditures, public borrowing, and fiscal administration.

455. Comparative Economic Systems. Five class periods per week for five credit hours per quarter. This is a course in which the economic systems of capitalism, socialism, communism, and other economic systems are analyzed and compared. Prerequisites: Economics 252.

461. Salesmanship and Salesmanagement. Five class periods per week for five credit hours per quarter. An analysis of the basic principles underlying the sales processes and their application to the problems confronting sales managers and sales executives such as organization, planning, territories, quotas, research, supervision, training, compensation, and supervision of salesmen.

462. Advertising. Five class periods per week for five credit hours per quarter. A study of the social and economic aspects of advertising. This includes a study of its uses and limitations, its organization, research, choice of media, methods of testing its effectiveness, and the place of the agency.

463. Credits and Collections. Five class periods per week for five credit hours per quarter. An analysis of the

principles underlying the extension of credit to finance the transfer of goods and services, with emphasis upon the organization and operation of credit departments and the function served by them. Prerequisite: Marketing 261.

471, 472. Business Law. Five class periods per week for five credit hours per quarter. A course designed to acquaint the student with the more important principles of the law of contracts, agency, negotiable instruments, partnerships, corporations, personal property, real property, sales, bailments and security transactions.

475. Personnel Management. Five class periods per week for five credit hours per quarter. An examination of the principles and policies governing present-day employer-employee relations, and problems and practices in the field of industrial relations.

481 (Education 481). Materials and Methods for the Business Teacher. Three class periods per week for three credit hours per quarter. A study of materials available in the field, methods being used, evaluation procedures, and recent research in each of the various subject fields.

482. Business Communication and Report Writing. Five class periods per week for five credit hours. A study of the principles and practices of modern business communication with the emphasis on mechanics and content of various types of letters and reports. The gathering, organizing, and interpreting business data for the presentation of the findings in effective report form.

485. Office Procedures and Filing. Four class periods per week for four credit hours per quarter. This course is recommended for the business education major. It gives the student practice in the giving of dictation, both on machines and to individuals and in transcribing from machines. This course is also valuable to the business administration major because it takes up the study of the various systems of filing. Shorthand is not a prerequisite.

491. Research Seminar in Business Education. One meeting a week for one hour of credit per quarter. Open only to senior students. Lectures by visiting qualified specialists and research paper.

492. Advanced Accounting. Five class periods per week for five credit hours per quarter. Problems of the accounting processes with emphasis on the accounting statements in advanced accounting situation.

494. Income Tax Accounting. Five class periods per week for five credit hours per quarter. A study of principles and dictates of taxation of income and capital of individuals. Prerequisite: Accounting 292.

495. Income Tax Accounting II. Five class periods per week for five credit hours per quarter. Laws and regulations for corporations, estates, and fiduciaries.

497. Auditing. Five class periods per week for five credit hours per quarter. This is a study of the theory of auditing and evaluation of assets, and analysis of accounting procedure, and the presentation of statements. Prerequisite: Accounting 392.
