An aerial photograph of Toronto, Ontario, Canada, featuring the CN Tower as the central focus. The tower's distinctive white, tapered structure and glass-enclosed observation deck are clearly visible. The surrounding cityscape is a dense collection of skyscrapers and residential buildings, with a mix of architectural styles. The foreground shows a large parking lot and some industrial or commercial structures. The overall color palette is dominated by warm, golden-yellow and brown tones, suggesting a sunset or sunrise. The text 'turn on to toronto' is overlaid in the bottom right corner in a clean, white, sans-serif font.

# commentary....

The 1976-77 academic year is swiftly coming to a close which ultimately leads to "the changing of the guard". Election of new officers will be forthcoming in both the undergraduate chapters and our alumni clubs.

Your organization's Executive Committee should be bringing its files, work and administration binders up to date, so a smooth transition may take place.

There is plenty of fraternity activity that will take place within your organization between now and the end of the school year.

Chapter initiations should be well planned with the Membership Form (Form 19) typewritten, signed by the initiate prior to initiation, and mailed along with the check for initiation to The Central Office the day initiation is completed.

Each officer should review and bring up to date all loose ends. Your CEI Chairman should be preparing the last requests for points as the May 31st deadline is not far away!!

My special thanks to our alumni for their support. We have had over 1500 alumni pay their annual dues, thus creating an all time record income. The Capital Gifts contributions are also great in helping us purchase several of the much needed items for our Central Office so our fraternity can better serve our membership.

I trust you and your chapter have participated in Operation Up-Date, updating your list of lost alumni from your respective chapter, which your chapter secretary received in late November. If your chapter has not completed this most important task, please "get it on" and send the corrected list of addresses to The Central Office as soon as possible. Our alumni are a great asset to us, so do your part in helping to locate them.

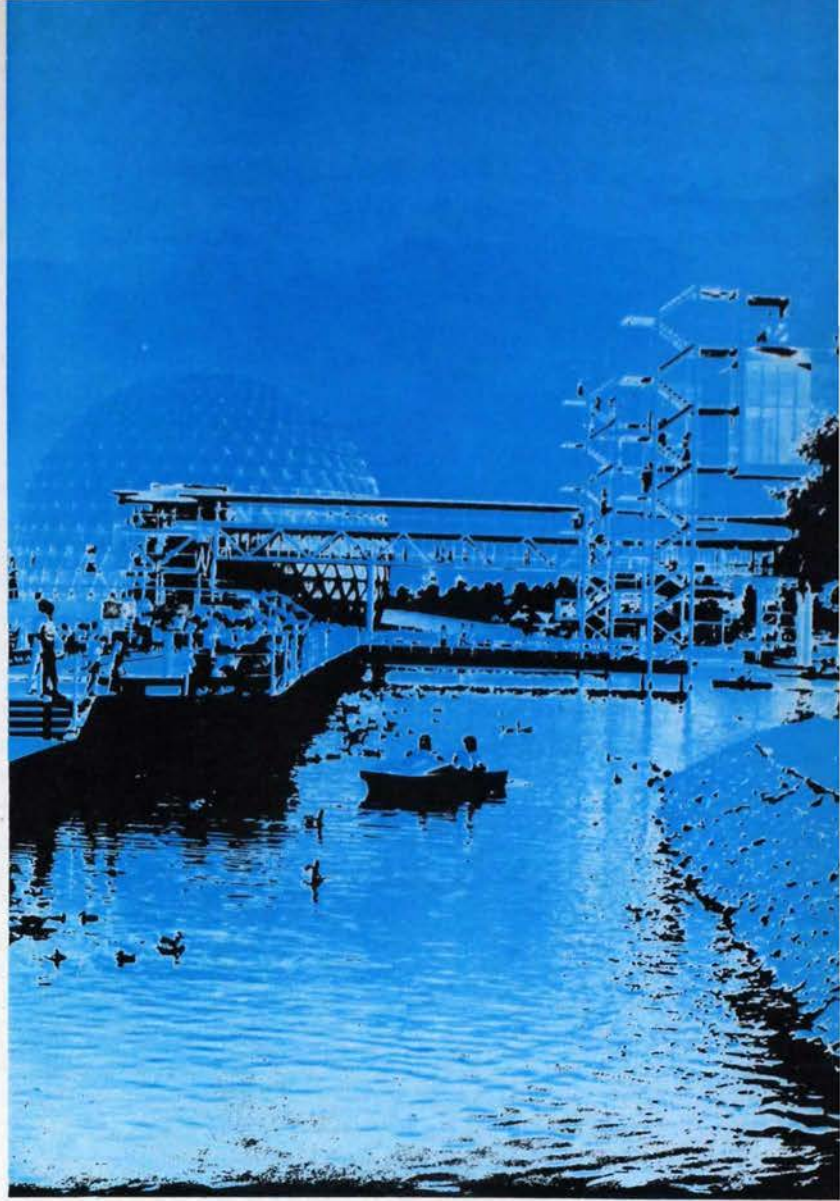

Fraternally,

A handwritten signature in cursive script that reads "Bill Tatum". The signature is written in dark ink on a light background.

William W. Tatum, Jr.  
Grand President

turn on to

toronto

Toronto, in the Province of Ontario in Canada, is a refreshing city to many of us in the U. S. who are accustomed to our own large cities and their characteristics. It is the site of the 31st Grand Chapter Congress of Delta Sigma Pi to be held at The Sheraton Centre in the heart of the city from August 14 to August 18, 1977. Make your plans now to attend.

Clean subways, safe streets, cosmopolitan atmosphere, good government, friendly cops, ethnic restaurants, boutiques everywhere you look, a revitalized civic center, neighborhoods restored. These describe Toronto which has grown faster than any other city in North America, while managing to grow more interesting and more humane, instead of more cruel and dan-

gerous.

Toronto is a forest, partly a wilderness, a street parade, an open-air concert, a sculpture garden; it is a village or series of villages, and it is quaintly honest. It is a delightful, unique experience.

Known by the press as "the world's newest great city", Toronto is the second largest city in Canada. National Geographic Magazine has

labeled it "the most civil and civilized city in the Americas". It is a beautiful, modern Canadian city and one of the safest, cleanest, and most exciting in North America.

The catalyst bringing it from arch conservatism occurred 10 years ago with the construction of the daringly different city hall, using the "eye of man" as its theme. It is a "people" city with signs which say "Please walk on the grass", pocket parks to relieve the expanses of buildings, and attractive walkways and benches with people in mind.

Busy Toronto has shed its conservative Victorian image from its original English settlers and has become a bold, cosmopolitan city quick to accept change and challenge and proud of its diversity. It is the financial, industrial, and cultural center of Canada.

The Toronto stock exchange, one of the largest in North America, changes 2 million shares daily. A 30 mile area surrounding the city contains the highest manufacturing concentration of any tract of similar size in Canada.

The Royal Ontario Museum, Massey Hall, O'Keefe Centre for the performing arts, the Royal Alexandra Theatre and the St. Lawrence Centre for the Arts provide a cultural climate unmatched by any other Canadian city.

Outstanding achievements of business and commercial, architectural, and engineering efforts are represented by the Toronto-Do-

minion Centre, the New City Hall, the CN Tower, and Commerce Court.

Distractions, amusements, recreation, and other interests abound in Toronto. Please plan to join other Deltasigs at the Grand Chapter Congress and explore some of Toronto in your free hours.

### Things To Do

How can one describe the *Canadian National Exposition* which will be in progress at Exhibition Place in August? It's crowded, corny, noisy, gaudy, educational, interesting. Displays, carnies, bands, uniformly terrible food, and 70 midway rides are all a part of the biggest, and one of the oldest "fairs" in the world. Admission is charged.

Adjacent to the CNE is *Ontario Place*, looking like a scaled down version of Expo in Montreal. It is 96 acres of man-made land above and in the water containing a park-like amusement centre, film displays, exhibitions, restaurants, lounges, snack bars, a museum, park areas, an outdoor concert hall, and a marina. Outstanding attractions are Cinesphere where movies are shown on a screen six stories high, and the Forum, an outdoor amphitheatre where concerts, opera and ballet are performed. Admission is charged.

The *CN Tower* is a communications tower, a sightseeing platform, a restaurant, an unforgettable elevator ride, and the world's tallest free standing structure at 1,815

feet.

*Churches* of historical interest are St. James Cathedral, Church of the Holy Trinity, St. Michael's Cathedral, Little Trinity Church, and St. Paul's Church.

*City Hall* and the nine acre *Nathan Phillips Square* supply the focal point for the city. It's a great place to sit, stroll, and people watch. Across the street is Old City Hall, one of the city's best loved landmarks. All these are just out the front door of our convention hotel.

The *Hockey Hall of Fame* and *Canada's Sports Hall of Fame* are two separate museums sharing the same building. Here is reverently displayed the famed Stanley Cup.

*Kensington Market* is an open-air, European style street market evoking a heady mixture of exotic sights, sounds and smells.

*Yorkville* is Toronto's Greenwich Village, three exotic blocks between Avenue Road and Yonge Street on Yorkville Street. This promenade of dim coffee houses, small, elegant shops and upbeat lounges harbors tourists, locals, hangers-on, cultists and entertainers.

Reminders of traditional Toronto which provide a quiet cloak of age and serenity to the bustling city are the Victorian-Romanesque Ontario Provincial *Parliament Buildings* which sedately preside over the elegant lawns of *Queen's Park*, not far from Yorkville and the University of Toronto.

The *Royal Ontario Museum* con-

tains, among other things, North America's finest collection of ancient Chinese artifacts. Four floors display a vast range of diverse collections. Next door is the *McLaughlin Planetarium*. Admission is charged.

*Metropolitan Toronto Zoo* opened only in 1974, yet is on its way in three short years to becoming one of the world's best. Where possible, the animals and not the people roam free. Admission is charged.

No one quite knows how to describe the *Ontario Science Centre*. It is a participating, not an observing, combination of exhibits and demonstrations. Admission is charged.

*Casa Loma* looks like what every child knows castles are supposed to look like. The 98 rooms include galleries, dining halls, secret panels and passageways. Most rooms are fully furnished. Admission is charged.

*Toronto Islands Park* is just off shore from the downtown area and accessible by regularly scheduled ferries. Admission cost for ferries.

*Black Creek Pioneer Village* is a self-contained village which conveys realistically Ontario life of 100 years ago. Admission is charged.

Also worth a visit if you're interested might be the *University of Toronto*, the *Royal York Hotel*, the *Toronto Stock Exchange*, *Campbell House*, the *Yonge Street Strip* (Toronto's Times Square), and the *Harbour and Islands Boat Tour*.

In addition, there are *theatres* and

*galleries* with changing attractions, and new attractions and activities are being created along the waterfront. *Walking tours* and *driving tours* will take you to many of the interesting sights. With the exception of the Zoo, the Science Center, Casa Loma, and the Pioneer Village, the sights and attractions are within walking distance of our convention hotel or are just a quick ride on the TTC.

*Sports* and sporting activities available are auto racing, bicycling, bowling, fishing, golf, horseback riding, sailing and boating, swimming, and tennis. All of these are available in Toronto at different locations and are covered by the guidebooks.

In the downtown and midtown area (where our convention will be and within walking distance or a short subway ride) there are over 100 *restaurants* offering a wide choice of foods, decor and prices. If these 100 restaurants don't offer enough choice, there are another 60 in the suburbs which are also rated.

*Shopping* abounds in Toronto—again within walking or riding distance of our hotel. The department stores—Eaton's, Simpsons, and The Bay—are the holy trinity of Canadian merchandising, all of them downtown. There are six excellent suburban shopping centers with from 115 to 170 stores each. The downtown underground offers shopping at Toronto-Dominion Centre, Commerce Court, and The Sheraton Centre. Bloor Street and Yorkville

are *musts* for shoppers and souvenir hunters. There are other shopping clusters scattered about.

*Night Life* is offered in at least 100 different clubs, bars, and lounges ranging from posh to funky, and expensive to moderate.

Places to go, things to do, places to eat, night life, tours, and other interesting information about Toronto are well explained and extensively covered in the guidebooks offered on newsstands and available in your hotel room.

August weather temperatures in Toronto average a low of 60 degrees F., and a high of 78 degrees F. The heat waves, when they happen, are great sluggish masses of damp, muggy air, plus sudden thunderstorms which provide a brief respite. The climate is similar in August to Boston, New York, Chicago, and Detroit.

The Province of Ontario is the center for Canadian art, home of the national capital, and is rich in wildlife sanctuaries, virgin forest, fish and game, historical sites, and national and provincial parks. It is industrialized yet agricultural, it is urbanized yet still wild and untamed. The province is as large as Massachusetts, New York, Texas, England, Ireland and the Bermuda Islands combined. It borders all of the Great Lakes except Lake Michigan, and offers a vast range of choices appealing to diverse tastes.

Ontario offers some particular attractions en route to or from the convention which you may want to explore. The Canadian national capital city of Ottawa offers the striking Parliament Buildings and other interests. Stratford, Ontario, offers the Summer Shakespeare Festival. In the South Central part of the province are the Horseshoe Falls, Canada's share of the mighty Niagara Falls and River.

#### Approaches and Travel

From the South, cars pass through either Buffalo or Detroit following the eastbound QEW (Queen Elizabeth Way) or eastbound Highway 401 (MacDonald-

# “Toronto in '77”

delta sigma pi...

31st grand congress

august 14-18, 1977

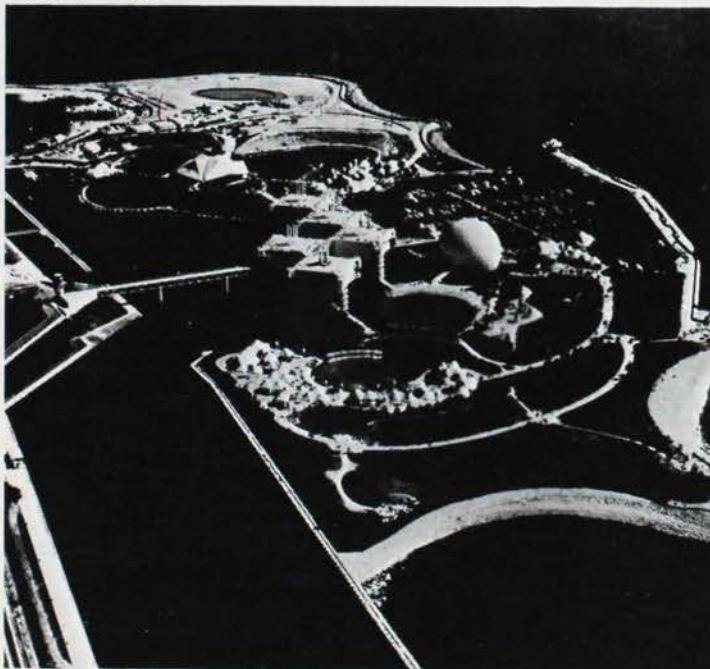

1. Exhibition Place, home of the famed Canadian National Exposition.
2. Old City Hall, the city's most loved historical landmark.
3. Ontario Place, three man-made islands providing 96 acres of family entertainment.
4. Black Creek Pioneer Village, a fully restored typical southern Ontario agricultural community over 100 years old.

① ↑ ③ ↓

② ↑ ④ ↓

Yorkville Village, an area of high fashion boutiques and outdoor cafes.

Toronto Islands Park, an 820 acre playground just a quick old-fashioned ferry boat ride from downtown Toronto.

City Hall, and Nathan Phillips Square, the themepiece for the "newest great city in the world."

Cartier Freeway). The QEW becomes the Gardiner Expressway to downtown Toronto with exits marked for downtown. Highway 401 connects with 427 Interchange South which connects with the Gardiner Expressway.

From the East, drivers also use westbound Highway 401 from Montreal and the Thousand Islands area, exiting South onto the Don Valley Parkway to the westbound Gardiner Expressway to the downtown exits.

Toronto International Airport, West of the city, is served by 18 major airlines, with airport buses and limousines serving the downtown area on a regular schedule. Air Canada, Allegheny, American, Eastern, North Central, and United provide service from the United States with Boston, Buffalo, Chicago, Cleveland, Detroit, New York and Pittsburgh as the main U. S. gateway cities for connections.

Grey Coach Lines, an affiliate of Greyhound, and the parent Greyhound Lines provide service to Toronto from Boston, Chicago, Detroit, New York and Washington, DC.

The main Canadian rail systems, Canadian National and Canadian Pacific Railways, provide service through Canada and to Buffalo, New York, Windsor, Ontario (adjacent to Detroit), and Sarnia, Ontario (adjacent to Port Huron, Michigan).

While in Toronto, drivers may easily follow the East-West grid pattern of streets and the ringed expressways which form an inner belt around the city.

Public transportation for getting around Toronto is excellent. The subway is fast, frequent, relentlessly clean, and not too crowded except during rush hours. It is also a safe ride late at night. Buses and streetcars take you where the subways won't. They connect with the subway stations, and often one may use a simple transfer rather than paying an additional fare. The public transportation system (TTC) will

reach most attractions conventioners may want to visit.

Toronto is approximately 556 miles from Boston, 92 miles from Buffalo, 531 miles from Chicago, 296 miles from Cleveland, 244 miles from Detroit, and 557 miles from New York.

### Other Information

All persons registering for the Grand Chapter Congress will receive an outline of border and customs regulations and laws from The Central Office when the registration is confirmed.

Information will also be provided on Canadian liquor laws, driving regulations, and suggested clothing for the convention and the city.

### Costs

#### Registration

1. Advance Registration Fee (for Fraternity Members, Spouses, and Children 14 years of age or older) will be \$20.00.
2. On-site Registration (at the convention hotel on August 14) will be \$25.00.
3. Cancellations prior to 30 days (July 15) before the opening day of the Grand Chapter Congress (August 14) will incur a \$5.00 handling fee. No refunds on cancellations will be made after July 15, 1977.
4. Children less than 14 years of age will pay no registration fee and do not receive a convention souvenir.

#### Room Rates (European Plan—includes no meals)

Singles—\$37.00 + 7% Tax (2.59) = \$39.59

Twins (Per Person)—\$22.00 + 7% Tax (\$1.54) = \$23.54

Triple (Per Person—Existing Beds)—\$16.67 + 7% Tax (\$1.17) = \$17.84

Triple (Per Person—Roll Away Cot)—\$17.67 + Tax (\$1.24) + \$18.91

Children—Under 17 in same room with parents and with existing beds—No Charge

Children—In separate facilities pay full room rates as shown above

#### Meals (Including Tax and Gratuity)

Pink Poodle Luncheon (Members Only)—\$5.75

Delta Sigma Pi Educational Foundation Luncheon—\$8.50

Grand Chapter Congress Banquet—\$15.00

Farewell Luncheon—\$11.00

#### Other Costs (To Assist You in Budgeting)

Spouse Tour—Adults \$2.00,

Children and Students \$1.00

Yellow Dog Initiation—\$2.00

Meals other than those on the program

Incidentals such as gifts, souvenirs, bar bills, etc.

Admissions to some of Toronto's attractions—usually about \$2.00

Airport Bus \$2.75, Airport Taxi \$10.00, Airport Limousine \$12.00

TTC subways, buses, streetcars, 40¢ per fare

Taxis 70¢, plus 10¢ every ¼ mile or 1½ minute

Parking Lots and Garages—\$3.00 to \$5.00 per day

The Sheraton Centre Parking—\$4.00 per day, plus \$1.00 valet service.

Your own personal gratuities

# FORTUNE FAVORS THE BOLD

The Air Force's newest bomber, the B-1, is shown in aerial refueling tests with a KC-135 refueling tanker. Tinker Air Force Base is logistics manager for both planes.

Major General Carl G. Schneider, Texas-Austin.

As a young fighter pilot, I was told by the old pros that you must be bold to survive in that very exciting, yet dangerous profession. Therefore, I adopted the motto, "Fortune Favors The Bold". Perhaps these words need a bit of clarification in order to put them into the proper context. I define fortune as success or prosperity, not necessarily in a material sense, but in all phases of life. Bold, to me, means being self-confident and

brave, in being prepared and having the courage to make the tough and often unpleasant decisions when they have to be made. I've tried to follow my motto and believe that it's been helpful in achieving some measure of success during a very interesting and challenging life as a career fighter pilot in the United States Air Force.

I'd like to share some of my secrets of success with you. I believe they apply to anyone in any profession or career. There are many definitions of success and it doesn't necessarily mean making a million dollars—unless that's what you are striving to achieve. But whatever your definition of success, it should be balanced in all areas of your life.

One definition of success was defined by three businessmen talking in their executive club. Mr. Brown said he believed the epitome of success would be to have an invitation to the White House to visit the President. Mr. Jones thought awhile and said, yes, that would be a good definition of success, but he would add this to it—You are invited to the White House; you are visiting the President; his hot line rings and you are so important that the President ignores it. Mr. Smith said, "You are both wrong—it's even more than that. I agree with the invitation to the White House and the visit with the President. But when his hot line rings, instead of ignoring it, the President answers the phone, listens a moment, then turns to you and says, Here, Mr. Smith, it's for you."

My definition of success is as follows: It is the *progressive achievement of worthwhile, challenging and balanced goals*. Let's get down to specifics. Here's how you can develop a personal success plan.

—Crystallize your thinking; determine specific goals and dedicate yourself to their attainment.

—Develop a plan for achieving

your goals and deadlines for their completion. It is especially important to write goals down, both short and long range. For instance, you don't complete a college degree in one continuous flow. You must tackle it by daily goals—worked on weekly, by semester and year.

—Develop a burning desire for achievement. Be success conscious and create a habit of success.

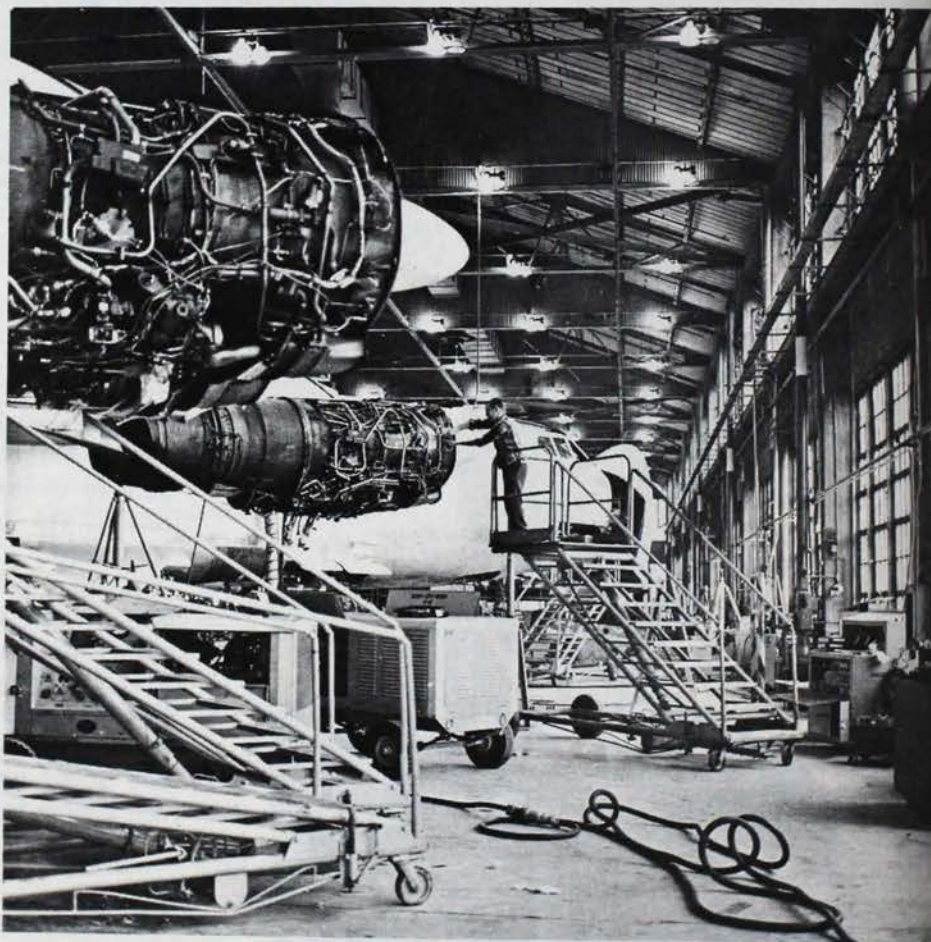

—Develop supreme confidence in yourself and your abilities. Concentrate on your power instead of your problems. Continually develop your ability to study, speak, and listen.

—Develop a solid determination to follow through on your plan regardless of obstacles, criticism or circumstances. Each successful person has a story of fears and disappointments, but he or she becomes a success through persist-

ence and the determination to achieve established goals.

In setting your goals, visualize the end result. As a pilot flying from one base to another you only see the destination during the last 1% of your flight, but you must have faith that it will be there when you break out of the clouds. You develop this faith through careful planning. Just as in establishing lifetime goals, a flight plan must include direction, timing, speed, a consideration of obstacles, the amount of fuel or energy required, and alternate routes to reach the destination. You must persist until the goal is reached.

In my opinion you should set goals in eight areas of your life: Career, Family, Financial, Physical, Spiritual, Mental, Social and Recreational.

The Big Bird, the B-52, gets a final check on the power supply system during regular modification at the Oklahoma City Air Logistics Center, Tinker Air Force Base.

Overhauled fuel controls are reassembled under controlled atmospheric conditions.

Soon to be on the Tinker scene is the E-3A aircraft, the Airborne Warning, and Control System (AWACS).

**CAREER:** Be a professional in your life's work. Do your job better than anyone else you know. Jump off the diving board and get involved. For instance, recently I flew a new jet fighter aircraft out of the Vought Corporation in Dallas to evaluate a flight control modification. I took the aircraft up to altitude and put it through all the flight maneuvers. I also tested the improved bombing system of the aircraft on a gunnery range in Louisiana. By being fully prepared and getting personally involved, I will be much better able to make a decision on the support of this new fighter. Be honest in all your dealings. Determine to train and inspire your subordinates. Set high standards for yourself and your people. Work hard, but work smart; be innovative. Always be on the lookout for a better way to do the job.

**FAMILY:** If you are going to be a success, you must work long hours. Therefore, plan to spend quality time with your family rather than a large quantity of time. Show a concern and interest in your family. Plan things together. Bring your family into your profession so they will understand and support the professional side of your life.

**FINANCIAL:** Buy adequate insurance at an early age. Develop a reasonable budget. Start a savings account, no matter how modest, and stick with it. Get financial counseling. You have a golden opportunity to tap the brains of experts while you are in college. There are also many magazines and books that you may study to develop a sound financial program. Watch the interest charges that you pay. Keep a careful checkbook. By all means establish sound credit. The only way you will ever be a great financial success is by using other people's money and they must have trust in your honesty to loan you that money. Set *specific* short and long range financial goals.

**PHYSICAL:** Have a regular schedule. Develop a program that suits you and your way of life, whether it is jogging, calisthenics, tennis or golf. Watch your weight and health. You will feel better and certainly present a much better appearance if you stay trim and healthy.

**SPIRITUAL:** Attend the church of your choice. Develop a sound philosophy. You must depend on a higher power to get you through the many future problems you will have. I can personally attest to the fact that if someone hadn't been watching over me, I wouldn't have survived over 20 years of flying high performance aircraft in both training and combat.

**SOCIAL:** Enjoy the social activities of your organization. You will get to know your associates much better in an informal and relaxed atmosphere. Be active in community affairs—Scouts, Little League, PTA, and civic groups. As an educated citizen, you have an obligation to take a deep interest in community, state, national, and international affairs.

**MENTAL:** Continue to study. Work on an advanced college degree after you are settled if you haven't completed one. Read good books. They will broaden your horizons and stimulate your creative imagination. Associate with positive and successful people. Don't hesitate to ask their advice and assistance. *Most* successful people are happy to help someone who is ambitious and interested in moving ahead.

**RECREATIONAL:** Take some time off to relax. Leave your job in the office and your family at home. In other words, don't worry about one while you are trying to concentrate on the other. Have a hobby, whether it is working on cars, riding horses, or chasing butterflies—whatever relaxes you and gets your mind off your primary concerns.

To accomplish your goals, you must use your time wisely. A book I read recently and can highly recommend is titled, "How To Get Control Of Your Time And Your Life", by Allen Lakein. There are numerous other self-help books in your local bookstores and libraries which will inspire and motivate you to achieve success.

In closing, true success and happiness are found in serving a cause bigger than yourself; in helping others grow and achieve, in making peace with your personal God and in living each day to its fullest.

I hope these thoughts will be of some benefit to you as you finish your college goals and embark on the challenging and enjoyable life ahead.

*Major General Carl G. Schneider is Commander of the Oklahoma City Air Logistics Center, with headquarters at Tinker Air Force Base, Oklahoma.*

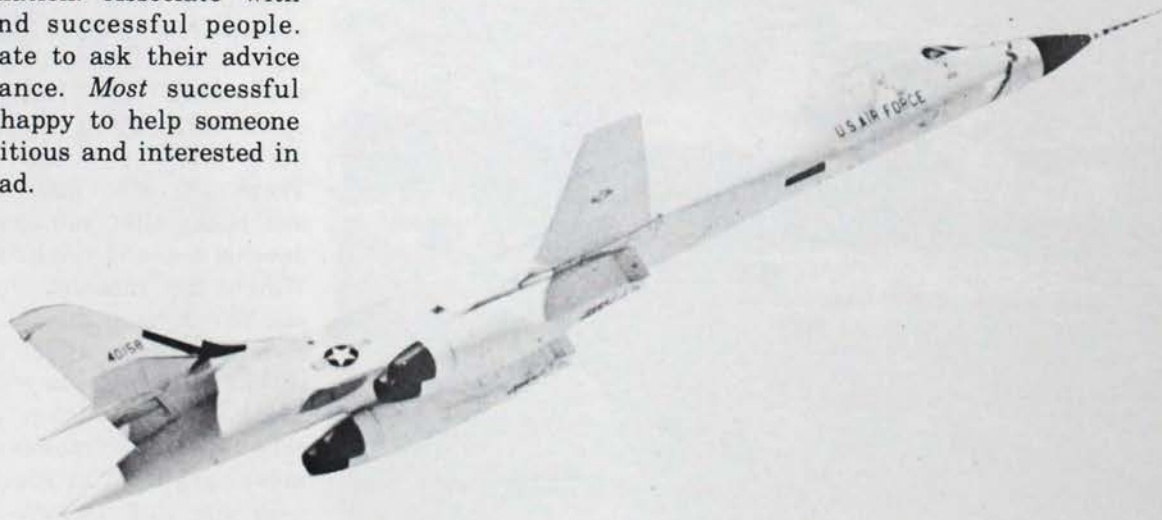

*Born in Ralls, Texas, he attended Texas Tech University for a year prior to entering military service in 1946. He has a B.S. in business management from Arizona State University and a master's degree in international relations from George Washington University. He graduated from the Air War College in 1967.*

*In his military career he has been stationed in Texas, Colorado, Arizona, Nevada, Florida, Germany, Vietnam, Kansas, Georgia, Korea, and Oklahoma in various capacities.*

*In addition to being a Deltasig alum from Texas-Austin, he is a member of Sigma Iota Epsilon and Beta Gamma Sigma.*

*Military decorations include the Legion of Merit with one oak leaf cluster, Distinguished Flying Cross with one oak leaf cluster, Meritorious Service Medal, Air Medal with six oak leaf clusters, and the Air Force Commendation Medal.*

*He, his wife Elaine, and two children live in Oklahoma City.*

... among the chapters

## NEW YORK

ALPHA CHAPTER AT New York University is currently running a peer counseling program for students in conjunction with the Business and Industry Placement Center on campus. The new found venture promises to be most rewarding to both the N.Y.U. students and ourselves. All of the current Brothers are contributing as much time as they can. This past Fall semester we initiated seven Brothers, bringing our membership to 20. These new Brothers, as Pledges, created one of the finest newsletters that Alpha Chapter has had in years. At the time this article was written, we received a request from Epsilon Lambda Chapter to hold a joint "Professional Weekend" in New York City. Hopefully, this event will have taken place by now. Getting together like this can be very good for each chapter and the fraternity as a whole.

With the help of the newly initiated Brothers, Alpha Chapter is looking forward to a successful and prosperous Spring semester. We wish the same for all of the chapters. Good luck!

—KEVIN W. KIERNAN

## SUFFOLK

WITH THE FIRST semester of the 1976-1977 academic year now at a close, Delta Psi Chapter is able to look back at one of its most

active periods. Beginning the year with a new slate of officers, we were able to increase our active membership with the addition of five new neophytes. Our new Brothers are Robert Capasso, Nathan Collins, Dale Eiermann, David Grab, and Joseph Russo. Very ambitious in helping to plan both professional and social activities during their pledge period, the chapter knows that they will continue as such as Brothers of Delta Sigma Pi.

Our professional program this semester was very broad with such speakers as Doris R. Pote, Chairman of the Massachusetts Consumers' Council; Harley Laing, an attorney with the Environmental Protection Agency; G. Howard Kingsley, Professor of Law at Suffolk Law School; and Brother Thaddeus Buczko, State Auditor of the Commonwealth of Massachusetts. In addition, the Brothers toured the Boston Stock Exchange on a field trip.

In November, the chapter held a raffle which netted close to three hundred dollars. The Fund Raising Committee is presently working on plans for a second semester fund raiser. Proceeds will be used towards finances for this year's Grand Chapter Congress.

Plans are now under way for our annual Rose Dance, which will be held in May. Delta Psi Chapter is also in the process of publishing its first alumni newsletter ever, which

will be mailed prior to this printing.

—DAVID W. DUBE

## SIENA

OUR CHAPTER ACTIVITIES in the first semester revolved mainly around rushing, which ended with the initiation of five new members on December 4. Professional events included a tour of one of the largest cement companies in the United States, Atlantic Cement. We also sponsored a lecture on writing resumes and how to conduct oneself at a job interview.

A seminar on "Dishonesty in Business" is presently being planned. Segments will be devoted to shoplifting, employee theft and corporate espionage. We held a similar seminar last year on the topic of "Occupational Alcoholism", which was highly successful. Events of this nature bring together members of the business community, the college and the fraternity in examining problems which affect all of us. With this event at the center of our calendar, we anticipate a productive ending to the year.

—CHRIS KERWICK

## JOHNS HOPKINS

CHI CHAPTER AT Johns Hopkins University was well represented at the 1976 Mideastern Conference held in Philadelphia. A dynamic presentation was given by Brother Bob Meyers on recruitment, the pledge program, involvement, and motivation within the chapters.

The Brothers of Chi Chapter celebrated Founders' Day with a meeting and dinner at the Johns Hopkins Alumni Club. All those present had an enjoyable evening and Chi alumni were well represented.

The professional meeting in November was highlighted with a tour to the Maryland Academy of Sciences in downtown Baltimore. This modern science building is equipped with a planetarium which provided an interesting program for the evening. After the tour, the Brothers, wives and friends went to a floating restaurant in the inner harbor to culminate a delightful evening.

The professional meeting in December included a tour to the Black & Decker Plant located in Hamstead, Maryland. Here the Brothers were given an overview of production line operations in the assembly, testing, and packaging of electric power tools.

Our chapter president, Henry Sohl, has instilled a greater determination in the chapter

Members of Zeta Eta Chapter at St. Peter's on tour at a paper recycling plant.

by all the Brothers to increase the quantity of pledges next semester. Membership recruiting is every member's job and responsibility.

—MELVIN J. SMITH

#### MARYLAND

THE GAMMA SIGMA CHAPTER at the University of Maryland is working hard to achieve 100,000 points in the Chapter Efficiency Index. Included in our schedule of activities are tours of local industrial facilities, speakers from many of the fields of business, and several fund-raising events.

At the close of the Fall semester we initiated six men and one woman into the Gamma Sigma Chapter. All are excited about helping to make our chapter one of the most active in Delta Sigma Pi.

Recently, our chapter held its elections for new officers. Included in the new slate are Wayne Brent, president; Patricia Poulchinski, vice president; Craig Lichter, vice president of professional activities; Tom Gallas, vice president for pledge education; Steve Peck, secretary; Nick Yansich, treasurer; Mark Friedman, historian; William Shaw, chancellor; and Ted Freed, Chapter Efficiency Index chairman. With these new and enthusiastic officers, the Gamma Sigma Chapter of Delta Sigma Pi is aiming for one of our best semesters ever.

—MARK FRIEDMAN

#### ST. PETER'S

THE BROTHERS OF Zeta Eta Chapter would like to extend a special thanks to the Brothers of Alpha Chapter at New York University, and especially to their President, Brother Kevin Kiernan, for the use of their regalia for our Fall initiation.

Our professional program, organized by Brother John Kennelly, included some highly informative visits to the offices of the Securities and Exchange Commission and to the Garden State Recycling Plant.

Our basketball team, under team leader Brother Dave McIntee, is well on its way to the Championship of the Greek Council. Brother Al Gill is the league's leading scorer with a 26.1 points per game average.

The highlight of our social calendar for the early Spring semester was a delayed Christmas Party run in mid-January by Brother Joe Tizio. As usual, our Brothers displayed their high degree of professionalism: only our President, Brother John Ostynski, needed to be fished out of the punchbowl.

Our Social Chairmen, Brothers Chuck Richards and Dave Harris, organized another highly successful fund raising drive to help defray the costs of the convention in Toronto in August. We are hoping to be represented by our entire chapter.

—PASQUALE DEANGELIS

#### ST. JOSEPH'S

MUCH HAS HAPPENED at Zeta Pi Chapter since you last heard from us. Our intramural football team finished second in the league here at St. Joseph's College. Finishing with the best record in the league, the team took a bye in the quarter-finals, and defeated their semi-final round opponent in an emotional sudden-death game. Then, in the championship game, the Deltasigs lost a heartbreaker in the final seconds. Still, we're

very proud of our coach, Brother Jim McBrearty, for inspiration and unique form of Brotherhood during the season.

Also, there have been some new appointments: Mr. John Haverty was elected as our new chapter advisor, Brothers Vince Spiziri and Tony D'Amico were appointed as co-rush chairmen for the Spring semester, and Brother Conrad Boyle was appointed as the pledge master.

We would like to congratulate our new Brother, Steve Enoch, who is certain to be an asset to the chapter and the fraternity.

Our Community Committee under the leadership of Brother Al Kemery did some commendable work over the Christmas Holidays. The events included participation in a Toy Drive for poor and orphaned children, caroling for old folks down at Dreuding Infirmary, and a Christmas party for a local orphanage. Delta Sigma Pi means business, but it also means caring, not only for your fraternity Brothers, but for your fellow man. We have shown that the Deltasigs are willing to lend a hand to those in need, and that means just as much as business.

In the near future: our Professional Leadership Awards Dinner under planning by Brother Lou Mayer, with a recipient from the Philadelphia area, who is both active in business and in the community. We are certain of another interesting and successful event. Well, we'll talk to you again in May. Hi, out there to everyone at Shepherdstown, Epsilon Kappa.

—ROBERT SCHUSTER

#### DUQUESNE

THE THETA RHO CHAPTER at Duquesne University is enjoying a successful Spring semester as it marches once again towards attaining 100,000 points in the Chapter Efficiency Index.

The Brothers began the semester with a completely reorganized and revitalized fund

raising program. The cornerstone of the program is our business school "T-shirt" sale. The shirts which provide individual identity for the Duquesne University Business Students are not only very popular, but also spread recognition of our chapter throughout the entire campus and are highly profitable. We hope other chapters of Delta Sigma Pi will consider having a sale similar to ours.

Our professional program was highlighted with a tour of the United States Steel Homestead Works. Later this semester, we will have speakers from Equibank, The National Association of Accountants, and Ken Brown and Associates.

We all looked forward to our party at Children's Hospital in Pittsburgh. This event always provides a great sense of joy and unity throughout the chapter.

Athletically, the Deltasig Bowlers and the Theta Rho Roundballers are both dominating the Independent Intramural Bowling and Basketball Leagues, respectively.

We are having a highly productive Spring semester, and we wish all chapters of Delta Sigma Pi the best of luck in fulfilling their plans.

—JOHN LEVITSKE, JR.

The 10th Anniversary of Zeta Upsilon Chapter at Virginia Tech was celebrated by chapter members and friends.

## VIRGINIA TECH

**ZETA UPSILON CHAPTER** at Virginia Tech is continuing its assault upon our continuing objective of 100,000 points in the Chapter Efficiency Index. The points are not accumulating at the same rapid pace that points are scored upon our pinball machine, but the chapter will not consider this year a complete success unless this goal is met.

Members of Zeta Upsilon Chapter attended both the Mideastern and South Central Regional Conferences, bringing home the prize for the most man-miles traveled to the South Central Conference in Richmond, Virginia. We would like to thank those alumni who showed their interest in the chapter by attending our Homecoming festivities. Also present during Homecoming was the legendary Mr. H. C. Bunz. Congratulations are extended to our new Rose, Debbie Daspit, and Bill Holt and Bill Nash for their graduation with degrees in accounting and marketing management, respectively.

Projects that will be undertaken during the first part of 1977 include sponsoring a raffle for 100 gallons of gasoline and helping fellow students receive Master Charge cards. The possibility of holding a business forum as a means to recruit new members is being investigated. Speakers at the forum are sure to include a great many Faculty Brothers from the College of Business here at Virginia Tech. Specific dates have yet to be set for our annual Spring Blast, but alumni will be notified in plenty of time for them to make their reservations for this once-in-a-lifetime event.

—THOMAS P. WALK

## MADISON

**THE BROTHERS OF** the Iota Kappa Chapter welcome the Spring semester with

many expectations. New plans have been made in an endeavor to improve our pledge program, as well as our professional activities program. The new pledge program is designed to produce good quality Brothers. It is set up to encourage interest for the new workers, to improve the communication between the Brothers and pledges, and to have more Brothers working with the pledge program.

The professional activities for this semester provide many new outlooks for future employment, along with topics of interest and insight to the business world. The Brothers plan to take trips to various accounting firms and have planned speakers on many topics.

Along with the professional activities and work, the Brothers have planned many social events, including the much anticipated Spring pledge banquet.

The Brothers at Madison College offer a standing invitation to all alumni and to Brothers from other chapters to attend our activities. The Brothers also extend congratulations to the married and engaged couples of the Iota Kappa Chapter.

—RON DEVINE

## FLORIDA STATE

**GAMMA LAMBDA CHAPTER** at Florida State University had one of its most productive quarters in years, this past Fall quarter. With Brother Jack Newman directing the revenue committee the chapter had two successful concert concession projects. The treasurer, Brother Steve Revis, worked closely with Brother Newman and also conducted a profitable ticket selling operation.

The professional programs consisted of a speaker from Coopers & Lybrand CPA firm, Pat Conway, and a professional tour to Jacksonville. The tour consisted of an inspection of the IBM branch office, a banquet with a guest speaker from Price Waterhouse, and a tour of the local Michelob brewery.

On the social side, there were several successful parties. In celebration of Founders' Day and Homecoming, a cocktail party was held before the big game. Many alumni were present, adding to the occasion. Also, in conclusion of a successful initiation and observance of the chapter's birthday a banquet was held at the prestigious Killarn Country Club. Seven new Brothers were honored. The pledge of the quarter was Jim Graham and the Brother of the quarter was Steve Revis. At this time, Alumnus Brother Ed Gray donated an old Deltasig pennant to the chapter.

The Chapter Efficiency Index Chairman Brother Philippe Jeck has reported that 42,750 points have been applied for or received. The strong showing reflects the overall success of the chapter.

Our chapter president, Tony Telford, has been selected as Gamma Lambda Chapter's candidate for the Deltasig Brother of the Year. Brother Telford will certainly be a top contender for the honor.

—PHILIPPE JECK

## GEORGIA SOUTHERN

**EPSILON CHI CHAPTER** at Georgia Southern College held Winter quarter initiation on March 5.

Projected activities for the rest of the year include the annual Rose Dance on April 16, in Savannah, Georgia, tours of local industries and two plants in Savannah, a weekend trip to Florida, and the always popular Deltasig/business faculty softball game and picnic.

The women in our chapter have made a pronounced contribution of leadership and enthusiasm at Georgia Southern as officers and as members. The women's touch is felt in the organization of parties and rush smokers, especially where refreshments are concerned. The addition of feminine talents is distinctly felt on Slave Day when the women do inside cleaning jobs for the professors. One highlight of the year was the initiation of our first woman faculty member who has always been a loyal supporter of Deltasig activities.

—CAROLYN E. JOHNSON

## FLORIDA ATLANTIC

**THE ZETA PHI CHAPTER** moved into last Fall quarter with renewed enthusiasm, with two professional events being held during the quarter. Mr. Albert T. Ellis was the guest speaker at our formal smoker. He spoke on the future of electronic banking, with particular emphasis on his company, Florida Coast Banks. Our second professional event was a tour of Modular Computer Systems, a manu-

The Garden State Recycling Plant was the scene of a professional tour of Zeta Eta Chapter at St. Peter's.

facturer of computers. The tour was conducted through several buildings where the computers are assembled and tested.

The Recruiting Program was successful and seven pledges began the pledge program. By the end of the five week period, the size of the class had dwindled and we initiated two new Brothers, Robert Gross and Gary Keenan. Both Brothers are sure to make immediate contributions to our Brotherhood. Several of those who dropped out of the pledge class indicated their willingness to pledge during the Winter quarter.

As a service to our school, the Brothers supervised a Student Government pool party and ushered at the dedication of Florida Atlantic University's new Ft. Lauderdale center.

The Brothers, in conjunction with Big Brothers of Broward, sponsored a picnic for children of single parent homes. A good time was had by all.

Athletically, the Zeta Phi Chapter athletes finished a perfect season. The football team finished a 10-0-0 season with a hard fought victory over Good Life in the FAU Super Bowl.

Graduation was kind to our chapter this quarter, as it claimed only one of our number, Joe Gosline. Joe was a hard working Brother and will be sorely missed. All of the Brothers wish him the best of luck.

With the Fall quarter now completed, we look forward to next quarter. Our primary emphasis will be on our recruiting activities so that our chapter will remain a viable part of Delta Sigma Pi.

—RONALD SWEENEY

#### FLORIDA TECH

THETA SIGMA CHAPTER at Florida Technological University challenged the Orange Wheels of Orlando, Florida, a state league wheelchair basketball team, to a wheelchair basketball game to be played on January 30, with proceeds going to the Leukemia Foundation. Much emphasis was placed on this event in the hopes that it will become a major, annual, fund-raising project to benefit leukemia research. The Brothers of the chapter also provided man-power to assist in scoring the 24-hour bicycle marathon, held in Winter Park, Florida. This event was sponsored by the Winter Park Jaycees, with proceeds going to Muscular Dystrophy research.

Nine Brothers represented Theta Sigma Chapter at the 1976 Florida Area Conference. President Bullard accepted the certificate for the Chapter Efficiency Index Honor Roll for the year of 1975-1976. This is the sixth straight year that Theta Sigma Chapter has achieved 100,000 points in the Chapter Efficiency Index.

—ADISON L. HOEQUIST

#### SOUTH FLORIDA

THETA PHI CHAPTER at University of South Florida has again been very active during our Winter quarter. February saw our Brothers out working at Tampa's Gasparilla Day Parade, our major financial activity for the month. Later in February, we hosted our annual Big Brothers Picnic in which each Brother got a Fatherless boy for a "Little Brother". The all-day funfest included a picnic lunch, sports, and local celebrities to meet

our boys.

On the professional side, we held several activities during the term, including a presentation by the IRS, a tour of underground Disney-World, and a tour of Merrill Lynch in Tampa. Our pledge program added a special "Paddle Nite" this quarter for pledges to "roast" their Big Brothers. The quarter was ended with the election of a new Rose and Faculty Advisor.

#### CINCINNATI

ALPHA THETA CHAPTER at the University of Cincinnati is preparing for the election of new officers sometime in early April. The officers this past year have been: Jeff Grimm, president; Larry Schroeder, senior vice president; Dave Wood, vice president of professional activities; Mary Jo Wuest, vice president for pledge education; Diane Cooper, secretary; Mike Mannino, treasurer; Bob Scholle, chancellor; John Koehler, CEI chairman; and Tom Williams, advisor. Dr. Williams was initiated into the fraternity this past year and has been a big help to us.

Our Winter quarter trip this year consisted of skiing and ice skating in Mansfield, Ohio. Social Chairman Chris Webb arranged for the

chapter members to stay at her parents' home near the slopes.

Our pledge class is finalizing its fund raising project, a lecture by Cincinnati Reds third baseman, Pete Rose. This will be open to the public for a nominal charge. All of the chapter members have helped to raise part of the cost of this project via a "liquid asset" blood drive.

Dave Wood, vice president of professional activities, has arranged a panel discussion with four representatives from Proctor and Gamble. These men will deal with their respective areas of concern: marketing, accounting and finance, research and development, and general management. We plan to invite the entire College of Business faculty and students. This will be one of the biggest events for the chapter this quarter.

—DIANE L. COOPER

#### MIAMI-OHIO

ALPHA UPSILON CHAPTER is ready to celebrate its 50th Anniversary, and all plans are full-go at this point! This celebration promises to be a truly memorable occasion. A lot of hard work has gone into planning our anniversary celebration, and all of us are looking forward to a good turnout of alumni and undergraduates!

Our current pledge program is one of the best ever, and the current group of pledges is going to be an important addition since we are losing 31 seniors this May. These Brothers will definitely be missed. The leadership and guidance they displayed was extremely valuable to all Brothers of Alpha Upsilon Chapter. These seniors are: Jim Holthus, Ken McCune, Mike Walsh, Steve Englebrecht, Dill Feltner, Tom Everhart, Edgar Bennett, Chris Kuczek, Dan Ernst, Dale Andreas, Tom Biggert, Fred Brussee,

Diane Frost, left, and Barbara Schkade, right, listen to Annette Hill lead a tour of the Albuquerque Convention Bureau as a part of the professional program of Gamma Iota Chapter at New Mexico.

Sam Chirakos, Bob Curry, Joe DiVito, Bruce Doremus, Jay Henderson, Scott Henderson, David Jesse, Scott Luckingbeal, Steve Lumley, Kim Mann, Doug Pioch, Ray Pooley, Steve Potash, Danny Shamp, Kevin Smith, Mark Stanton, Brent Thomas, Steve Ulmer, and Jeff Waltz.

Santa Claus, Frank Staudt, and an Elf, visit the Christmas Party at Theta Rho, Duquesne.

The Howard B. Johnson (Past Grand President) Trophy given by the Atlanta Alumni Club to the Southeastern Region Chapter having the highest increase in membership averaged over the past three academic years, and achieving CEI Honor Roll status.

Our professional program is providing us with an excellent selection of speakers and tours. Again the annual Playboy Club visit seems to be one of the favorite activities we are looking forward to. Overall, Vice President for Professional Activities Scott Feldmaier is doing one great job planning our professional program.

Excitement is already running through Alpha Upsilon Chapter in anticipation of the upcoming 31st Grand Chapter Congress in Toronto this August. We plan to be well represented at this event, and hope all Deltasigs will make a special effort to be there. Rumors in Alpha Upsilon Chapter say Senior Vice President Mike Carollo already has his suitcase packed!

We wish continued success for all Deltasigs in the last part of this school year and the remainder of 1977!

—GARY J. SHOWALTER

#### KENT STATE

BETA PI CHAPTER at Kent State started the new year with many new and worthwhile objectives. One of these new objectives was participating in a Free Enterprise Project sponsored by Standard Oil of Ohio. Four members, Gerald Allen, Karen DiFore, Paul Mohorich and Doreen Williams, attended a meeting in Cleveland to develop creative, imaginative and innovative approaches for solving our free enterprise problems.

This year we initiated a newsletter that will be put out once a quarter. This is meant to inform members and alumni of our coming events and projects. With this letter we also hope to contact as many alumni as we can for the purpose of creating an alumni club in the Kent-Akron area.

Plans are now being made for our annual Charity Raffle. Every Spring our chapter holds a raffle to raise money for a specific charity. Prizes will also be awarded for winning tickets.

—GERALD J. ALLEN

#### AKRON

THETA KAPPA CHAPTER of the University of Akron is currently involved in a regional competition of "The Students in Free Enterprise". Our Brothers constitute 75 per cent of the core student group in this program. The primary objective of the competition is to educate the general population in the area of free enterprise—what it is and how it works.

This past quarter we have had numerous speakers. Mr. George Prough, Assistant Professor of Marketing, Akron University, spoke on "Subliminal Sex and Death in Advertising". Joe McMullins of the Akron Branch of the FBI spoke on career opportunities in the FBI. Our next professional meeting hosted Mr. Ken Vandersluis of the Akron National Bank. On November 7, after a Founders' Day observance, the speaker was Mr. James Bray, Vice President of Cuttler Realty.

Among our other campus activities were orientation programs for students entering the business college. Theta Kappa Chapter has hosted four of these orientations with the cooperation of the Dean of the College of Business and various faculty members.

We have also instituted a new program within the chapter entitled "Deltasig of the Quarter". The most outstanding Brother of

the quarter is recognized for his effort and given a small token of our appreciation, presented by our faculty advisor, Mr. Mike Rolph of the Accounting Department.

We will initiate six new members this period. We are sure they will contribute to the fulfillment of our aims and the goals of Delta Sigma Pi.

—GREGORY J. GIRARD

#### BOWLING GREEN

THETA PI CHAPTER at Bowling Green State University started off the 1977 Winter quarter with a full program of professional, business and social activities. Professionally, we had many interesting area business persons as speakers, one of which was a husband and wife hair stylist team, who had a shop here in Bowling Green. Social activities included a Valentine Party with faculty attending, a Faculty-Deltasig basketball game and our combination Winter Banquet-Initiation night on February 20.

Our pledges were enthusiastic this quarter and the initiation went especially well because of the presence of our Regional Director Charlie Rolader. He gave an inspiring speech at the dinner.

Fund raising activities this quarter included a coupon sale. It proved a profitable activity last year so we decided to go with it again this year. The coupons offer discounts on area businesses to the buyer; again it is doing well. We also have other fund raising alternatives in the planning stage.

To all our Brother chapters we wish a pleasant Spring, and if you live up North you will know what a relief it will be to have good weather return.

#### ILLINOIS

UPSILON CHAPTER AT the University of Illinois held two rush smokers in January for the first time in a year. We pledged a smaller, but highly qualified group of men and women.

Before asking anyone to pledge this semester the chapter required rush prospects to attend three events prior to formal pledging; rush, a rush party, and a professional meeting. We felt that the added contact with rushees would help the chapter discover the people who would contribute the most to our fraternity.

Although the chapter will lose about 40 per cent of its members to graduation this May, the chapter decided not to pledge one person for every graduating senior. Instead the chapter will allow its ranks to decrease from over 90 to a smaller but more tightly-knit number.

For the second semester in a row the chapter allocated \$250 to help subsidize the cost of Life Memberships to Brothers. At last

count 17 members signed up to take advantage of the chapter's contribution. We are striving to have every Upsilon Chapter Brother sign up for a Life Membership by graduation.

On the first weekend back from Christmas break, Professional Vice President Mary Murray led a contingent of Deltasigs to Oxford, Ohio, to tour The Central Office. The group toured on Friday, partied up a storm that night and reluctantly returned home to their books on Saturday.

Thanks go to Professor Dick Arnould who hosted a grab bag Christmas party while fund raising chairman Joe Trefzger ate his heart out showing movies at 141 Commerce West.

—LANE A. KRAMER

### WISCONSIN-MADISON

PSI CHAPTER ANXIOUSLY awaited the holidays and the upcoming year. We had Tree Decorating, a Christmas Dinner with Egg Nog, and a Third Floor Christmas Party complete with a visit from Saint Nick. We had lots of good cheer, but the finals the next week had a strong sobering influence on the festivities.

At the festivities will be many of our new Little Sisters. The Little Sister's program is going strong with 17 pledges this semester. These women have been helpful at parties and co-educational sporting events. We would like to congratulate them on a good program.

Looking forward to next year, we look to our newly elected officers. We have relatively young, but enthusiastic leadership, and are eagerly awaiting the challenges of the upcoming year. Congratulations should go to Jeff Husman, president; John Erickson, Gerard Ballweg, John Dewey, Don Morell, Wendell Kurtz, Les Green and the continuing officers from last semester.

Congratulations should also go to Tim Hatch on his election as president of the Intrafraternity Council here at the Madison campus.

Our new officers will have to help fill the void created by our graduating seniors: Dean Farr, Douglas V. Handerson, and Paul Zauner. Their knowledge and wisdom will be missed by all of us. We trust they will find their rewards in their chosen fields—we wish them the best.

—JOHN DEWEY

### FERRIS STATE

DELTA RHO CHAPTER at Big Rapids, Michigan, has again completed a fine campaign to select qualified young men to join our pledge class. The Winter program produced 11 prospective men that we will soon be inducting into our chapter. With the addition of these new men we have grown to have the largest membership in the history of this chapter.

Plans are being made for our annual Career Day which is rapidly approaching. This year, we hope to provide the entire Ferris State College student body with approximately 45 representatives from surrounding firms. The students will have the opportunity to meet with and talk to the representatives about job opportunities and possible careers in the business world.

Our professional vice president, Charlie VanDuren, is keeping the Brothers busy with

several excellent speakers. We recently heard Delta Rho Chapter alumnus Norm Stricker speak on career opportunities and the inner workings in the field of banking. Brother Stricker, an officer of the Central Michigan Bank and Trust, gave a very informative speech which was followed by a large round of questions. We have also had two extremely educational tours that accented our well-rounded professional program.

The chapter's newly formed Community Relations Committee had all of the Brothers working diligently on a house-to-house drive for the United Fund. With the help and cooperation of Mecosta County's United Fund Drive Chairman Ray Shoberg, the Brothers spent one day in the Big Rapids community knocking on doors for contributions to help worthy organizations sponsored by the Fund. Everyone had a great time and a good feeling after helping to collect over \$285.00.

Brian Hass, social chairman, has presented us with a full slate of activities. Our annual Christmas party was a big success with over 40 Brothers and their dates in attendance. Also, with the early snow fall and beautiful weather, many Brothers are hitting the ski slopes which keeps everyone enjoying themselves in mutual Brotherhood.

Until next time, we remain in Brotherhood.

—TONY J. CURTIS

### EASTERN ILLINOIS

THE MEN OF Epsilon Omega Chapter anticipate a good turnout of pledges again this semester, just as we had for Fall semester. The quality of our last pledge class is shown by the fact that six of seven new members are now holding offices in the chapter.

We would like to congratulate Brother Brad Williams, who was selected to participate in a FDIC internship program this semester. Congratulations are also in order to

Brothers Karl Barnes, John Bratal, Bob Maliszewski, and Wayne Pickering, who were all recently initiated into the honorary fraternity of Delta Mu Delta.

Our professional program continued to be outstanding with a visit from Mr. Stu Green, a stockbroker from Mattoon, Illinois. The chapter also toured Blaw Knox Construction Equipment Inc., Mattoon; The Kitchens of Sara Lee, Deerfield; and The Chicago Tribune, Chicago. Many more speakers and tours are scheduled for the near future.

The chapter is anxiously awaiting some nice Spring weather so that we may continue our curb painting project. Also, this Spring we will continue to help out the local Heart Fund as we have in the past with our annual balloon sale at local shopping centers. We are now tuning up for our annual softball tournament held each Spring between neighboring chapters. We look forward to another good showing. The party afterwards is always enjoyable for the participants. Our pledge-member softball game held in late Spring each year is always a highlight for pledges and members alike.

—WALTER L. MIZENER

### LEWIS

THE ZETA XI CHAPTER of Lewis University is looking forward to a challenging second semester, with emphasis placed on membership, fund-raising, and an expanded professional program. Three new Brothers join us in our pursuits: Brothers Jim Warner and Ray Lipke, and faculty member Brother Walter Pascale.

At this time, we would like to extend our congratulations to graduating Brothers Ernie Peterek, Mike Wojtak, John Reihle, and Roger Rickmon.

Before breaking for the holidays, new officers were elected. Brother Steve Wlodarski

District Director Bain Proctor, left, presents the Howard B. Johnson award to Wayne Murdock of Kappa Chapter at Georgia State at the recent Atlanta Area Conference.

was elected president after impressively handling several lower offices last semester. Other new officers include: Brent Ayer, senior vice president; Bob Kwasiborski, vice president for pledge education; Rich Bersell, vice president of professional activities; Ray Lipke, secretary; Len Palka, treasurer; Dave Daniels, Chapter Efficiency Index chairman and chancellor; and Mike Broad, historian.

During January an extended Christmas break, as a result of the one month interim semester, gave the Brothers of Zeta Xi Chapter an opportunity to plan for Spring. We expect an excellent semester, particularly in membership and professional areas. In addition to our more serious concerns, the Deltasigs of Lewis College boast a contender for an intramural crown. After several lean years and with the addition of a bulky new center, we have come up with what appears to be a strong entry in the basketball competition.

During January, a party at Bob Kwasiborski's house provided an opportunity for the Brothers and alumni to renew their friendships. A good time was had by all who attended.

The Zeta Xi Chapter would like to extend their best wishes to all chapters for a successful Spring semester.

—BRENT AYER and STEVE WLODARSKI

#### WISCONSIN-WHITewater

THE THETA XI CHAPTER is enjoying a very successful year under the leadership of its new officers, who are: president, Jim

Coronado Shopping Center Manager Gary Cooper of Albuquerque was a professional speaker for Gamma Iota Chapter at New Mexico.

Dobrinska; vice president of professional activities, John Kanetzke; vice president for pledge education, Wayne Ligocki; senior vice president, Paul Nowak; treasurer, Bob Junk; secretary, Steve Nichols; chancellor, Steve Scheppman; CEI chairman, John Clifton; and historian, Carl Johnston.

Our professional program has been outstanding, drawing top executives from major companies. Among them have been former Deltasigs explaining the benefits of being a member of Delta Sigma Pi.

Our little sister organization has reorganized itself and has grown to be a major asset to our chapter at both parties and rushing functions. We would like to wish all Deltasigs the best of luck on their mid-terms and for the rest of the semester.

#### LOUISIANA TECH

BETA PSI CHAPTER began the Winter quarter with the initiation of 21 new men and women members on December 11. This was perhaps the strongest pledge class Beta Psi Chapter has ever brought through, and already they are contributing toward our goals of fraternal spirit and professional excellence.

Our service project this quarter was hosting a Christmas party for the handicapped children of Ruston State school. Toys were distributed by Beta Psi Chapter's own Santa Claus, Wayne Palmer. After several hours of carols and playing with the kids, Beta Psi Chapter ended the night with a party at Brother Hudson Akin's home.

Rush for the Winter quarter was scheduled for January 11 and 18 with pledging on January 20. The Brothers looked forward to another quality Associate Member Class as interest in Delta Sigma Pi is at an all time high at Louisiana Tech.

There were Professional Speaker meetings scheduled during the Winter quarter on January 27, and February 24. The quality of the Speaker Meetings and their professionalism is unequalled at Louisiana Tech, and Beta Psi Chapter takes pride in bringing these excellent professionals to Tech.

New officers were elected in Winter quarter for the next year; nominations were scheduled for January 27 with the elections held on February 24. The current slate of officers has really got Beta Psi Chapter off to a flying start at the 100,000 CEI goal. At this time Beta Psi Chapter is 30 per cent ahead of the point tally of last year. With this kind of start and with new, well informed and well oriented officers for the remainder of the school year, Beta Psi Chapter will reach the 100,000 point mark.

—LANE B. WILLIAMS

#### MEMPHIS STATE

GAMMA ZETA CHAPTER had a busy week in early November. The chapter held its 17th annual "Techniques of Interviewing", a clinic on how to prepare for, conduct, and follow up the interview. The presentation had six guest speakers, including Mr. James Ewolt, a director and partner in Arthur Andersen and Company, and Dr. Robert Crowe, Dean of the College of Business Administration at Memphis State. The clinic had about 75 participants from the School of Business. On November 7, Gamma Zeta Chapter celebrated Founders' Day with its initiation and dinner.

We lost four officers to Fall graduation, but with their help we are planning a big Spring semester. Plans for our Rose Ball are now on the board along with Spring rush and its activities. In early March Gamma Zeta Chapter plans to hold its 4th Annual Gamma Zeta Gala, a casino party, which is now a tradition at Memphis State. With a lot of luck Gamma Zeta Chapter hopes to attend the Grand Chapter Congress and meet the members from other chapters across the country.

—WAINE RATLIFF

#### NEW ORLEANS

EPSILON NU CHAPTER is happy to announce 19 new members. They are Richard Aquillo, Tom Benedetto, Jeff Burmaster, John Duda, James Edwards, Richard Fox, Rene Fuselier, Bruce Green, Barry Grodsky, Philip Gunn, Dan Hof, Larry Holmes, Kenneth Lacourge, Richardo Martinez, Larry Oster, Al Paulson, Hal Shea, Chuck Stehlen, and Dan Tobin.

On Saturday, November 6, 1976, the chapter celebrated Founders' Day at Lenfant's Restaurant. Alec Gifford, a local news director, was our guest speaker. Thanks go to Bill Lindsey for a successful banquet.

The Brothers also participated in a football game against the Crescent City Alumni Club. The outcome was as expected: the members won.

Our new officers for the Spring are Gary Rinck, president; Steven Orkis, senior vice president; Terry Manning, vice president for pledge education; Dan Hof, professional vice president; Kevin Boudreaux, secretary; Richard Corne, treasurer; Richard Granen, chancellor; Ronnie Rodriguez, CEI chairman; Phil Gunn, historian; and Terrell Martin, social chairman.

Dan Hof promised a busy professional program, beginning in January. In March there will be a tour of the Marriott Hotel. Best wishes for the year to all chapters.

—KEVIN BOUDREAU

#### CHRISTIAN BROTHERS

EPSILON PSI CHAPTER at Christian Brothers College has concluded a Fall semester that was very successful. One of our successes was in the area of membership. Nine new Brothers were initiated, the largest pledge class in recent years. We celebrated with a buffet dinner afterwards. A similar showing is expected in Spring.

President Eugene Castelon and four other Brothers attended the Regional Conference in Jackson, Mississippi, early this Fall. Their reports indicate that it was a very rewarding experience. Certainly, many of the ideas being tried out within the chapter are a

result of the various seminars which were attended.

Epsilon Psi Chapter is very proud to announce the election of Treasurer Thomas Fehrmann as our candidate for "Undergraduate of the Year". His nomination and election were assured by his academic achievements and his contributions to the chapter and to the community.

—THOMAS MAHER

#### NORTHEAST LOUISIANA

FROM NORTHEAST LOUISIANA UNIVERSITY, this is your roving reporter bringing you news of the Eta Omicron Chapter. The Brothers of the chapter are eagerly anticipating the Deltasig basketball tournament sponsored by the Crescent City Alumni Club in March in New Orleans. Besides enjoying the sights, we plan to have a professional tour while there.

At our Fall initiation, we initiated one woman and seven men, one of whom was Dr. Van McGraw, the Dean of the College of Business. Our Spring initiation and banquet will be April 30. We had our biannual retreat in February to get to know the pledges better and also had a Deltasig workshop. We have these retreats at the camp of an alumnus, Scott Ellen, near El Dorado, Arkansas.

The Brothers of the chapter participated in the school's intramural cross country run and won first place in total team points. Our display case now holds a very impressive trophy!

We are presently planning a Deltasig workshop conference with other schools in the area regarding constitutional revision, specifically about women in the fraternity, and about plans for a combined trip to the Grand Chapter Congress in Toronto, Canada, in August. Hope to see all the Brothers and Sisters there!

#### SOUTH DAKOTA

THE ALPHA ETA CHAPTER at the University of South Dakota wrapped up one of its most successful semesters in terms of recruitment as well as in activity.

Beginning with professional activities, we took a tour of the K-D Stockyards in Sioux City, Iowa. The tour showed a former meat packing plant that has been converted into a large and unique shopping center.

A new activity started on November 10 when the chapter challenged a faculty seeded team in volleyball competition, and the faculty won 2-1 sets in a highly controversial and contested match.

Approximately half of the chapter members were donors in the recent campus-wide blood drive.

The chapter continued its charitable activities by participating in the annual Dance for

Dystrophy at USD. Twenty-eight members signed up to stomp at the 24-hour marathon event slated for mid-January. The chapter hoped to be the most representative and largest single group at this event.

In the last issue of The DELTASIG it was mentioned that an alumnus had returned to Alpha Eta Chapter as faculty member; since then Charlie Kennedy has been elected as a new faculty representative, joining Jim Peterson and Bill Bergman.

Against this good news, Alpha Eta Chapter was saddened by the death of a long time faculty member, Vince Montgomery, who headed the Business Research Bureau at USD. Montgomery passed away on December 11, and we have named a scholarship in his honor.

Probably the biggest aid to Alpha Eta Chapter semester after semester has been our honorary Deltasig, the Dean's secretary, Trudy Peterson. Unfortunately for us she will begin at a new position on January 15. The chapter will miss her sorely.

The Ways and Means Committee's most successful operation was its semi-annual energy packs with snacks immediately preceding finals. Next semester the chapter is initiating birthday cake distribution and its annual tuition raffle.

On December 5, Alpha Eta Chapter continued its upward movement in terms of numbers and caliber with the initiation of 25 new members. Of the 25, the group broke down to 14 women and 11 men, bringing the total active chapter to 53, 20 women and 33 men.

Closing out the day, the chapter held its Winter formal at the Kochi in Yankton, South Dakota, with over 80 attending, including faculty and alumni.

Following the formal the next order of business was the election of officers and the decision concerning the Spring field trip. The result of the first meeting of this large active chapter was the selection of St. Louis for our annual field trip, coming at the end of March.

Election of officers followed and the results are: president, Wayne Huls; vice president of professional activities, Steve Amerine; senior vice president, Roberta Kastner; vice president for pledge education, Marce Largent; secretary, Kris Bahr; treasurer, Tim Spahr; historian, Gayle Fiestner; chancellor, Trace Benson.

Alpha Eta Chapter looks forward to another successful semester and hopes the other chapters have luck in quest of the 100,000 point goal.

—TRACE BENSON

#### WAYNE STATE

ETA PI CHAPTER at Wayne State College is establishing contact with all alumni members. The chapter wants to establish an active group which included alumni members. Any alumni not contacted by the chapter and wishing to be in the know are urged to contact the Eta Pi Chapter at Wayne State College. President Eldean Reinke wants the alumni to participate in the upcoming initiation and the Rose Formal to be held in April. The exact date will be sent to all alumni the chapter has an address for.

The chapter initiated a fine group of 11 men and women. We are counting on these

Deltasigs to help us achieve 100,000 points in the Chapter Efficiency Index. Fund raising and other activities are receiving an active interest by the new Brothers. Brother Dan Morfeld was nominated by the chapter as Undergraduate of the Year.

We have two fund raising projects this year. Our traditional coupon books are selling for \$2.00 each. Also, the manager of Pizza Hut offered us and other college organizations a chance to sell their calendar books, which are good nationwide. They sold for \$1.00, of which we keep fifty cents. These calendar books netted us about \$84.00.

To help cover pledge expenses, the pledges sold pickles at a football game. Unfortunately, this didn't go over as well as anticipated. They did have more luck when they sold raffle tickets for a \$25.00 gift certificate at a local supermarket.

Craig Bicknell started a short-lived community project. Dr. Violate, a retired biology teacher from Wayne State College, came down with the flu and was unable to feed his mice, a couple of hundred or so. Members from Delta Sigma Pi went to his house to feed them.

We went to Des Moines for a professional tour. The businesses we visited were Banker's Life Company, Massey-Ferguson, and Northwestern Bell.

The second term goals include initiating 14 new members and establishing the Delta Sigma Pi name before all business students. The chapter also looked forward eagerly to the 1977 North Central Regional Basketball Tournament held in Lincoln by the Alpha Delta Chapter on February 25-26. Our chapter birthday party will be held the first week of April.

The Central Office has supplied helpful suggestions to help us reach our goals. The Eta Pi Chapter is confident this information will continue so that the International Fraternity of Delta Sigma Pi may continue to grow and prosper.

—ELDEAN REINKE and BETH ANN CLAY

#### ST. CLOUD

PREPARATIONS ARE UNDER way for Theta Tau Chapter's fifth annual Florida trip. Chairman Dave Leininger says we will be bringing 200 students down to enjoy the sun and fun of Daytona Beach, and get away from the cold weather in Minnesota for seven days and six nights.

Congratulations to Brothers Ross Boerhave and Brad Armstrong!! Ross was Fall quarter's Ideal Member, and Brad received the Theta Tau Chapter Scholarship Key.

Homecoming provided both the alumni and undergraduate members of Theta Tau Chapter the opportunity to match up against each other in football. Before St. Cloud State played its game, Theta Tau Chapter played, with the undergraduates inching out a victory.

Businessmen from all over the St. Cloud and Minneapolis area attended this year's Career Days. Put on by the Business School, Career Days lets the students interact and get to know the businessmen in the community. Mr. Loehr, President of U. S. Operations for 3M, was the guest speaker at the luncheon.

Theta Tau Chapter welcomes our new members. We pledged 13 new Brothers into the Fraternity.

#### MISSOURI

ALPHA BETA CHAPTER at the University of Missouri at Columbia elected new officers for the 1977 Winter semester. The new officers are President Bruce Bodner; Senior Vice President Randy Meyer; Vice President of Professional Activities Erwin Ruppe; Vice President for Pledge Education Al Debolin; Treasurer Jim Shell; Secretary Mark Kirchhoff; Chancellor Tony Fuller; and Historian Jim Marshall. The Brothers wish the new officers success in 1977.

The Brothers have planned three fund raising projects for the 1977 Winter semester;

tax service for Missouri students, ballot collecting for the Missouri Students Association election and a campus movie. The expected revenue gained from these projects should exceed \$550.

The professional activities for the 1977 Winter semester are divided into professional speakers and a professional trip. Speakers will be selected from various fields of business to discuss current trends in these fields and future employment opportunities. The professional trip is planned for either Dallas or Chicago.

Alpha Beta Chapter's community service project will be arranged through Voluntary Action Center in Columbia. This center will match our Brothers' energies with appropriate community projects.

Because of the upcoming senior graduation, Alpha Beta Chapter will lose 85 per cent of its active membership in May. Therefore, recruiting activities for the Winter semester were begun early, and a goal of 30 rushees was set.

—GARY WARREN

#### OKLAHOMA

AS CHRISTMAS AND the end of the semester approached, the members of Beta Epsilon Chapter wound up the affairs of 1976 and looked forward to 1977. Our newest members are anxious to take the place of our graduating seniors and carry on in the fine tradition set by them.

Among our activities Fall semester were a homecoming mum sale, a real Italian spaghetti dinner, and sponsorship of a university-wide business day in which the president and top executives of Southwestern Bell flew in for the day to give the entire College of Business a rare insight into the "real world of business". Included were some of the unique problems associated with being a monopoly and the government regulations and intervention which ensues.

We have already begun planning next semester's activities with special emphasis on recruiting and pledging. Our officers have some innovative ideas which we feel are worthy of special attention.

—D. ROTEN

#### OKLAHOMA STATE

GAMMA EPSILON CHAPTER at Oklahoma State University is continuing with its campus activities by providing a free tax service for the students. We began the service in February and we will continue with it until April 15. This is the second straight year for the service and it has been a big success.

We held our annual Rose Ball in February and it was well attended by the members and their dates. The evening was highlighted by the crowning of the queen and the presentation of the Roses.

We have taken a couple of professional tours of businesses in Tulsa and Oklahoma City. The members attending enjoyed getting away from the classroom and seeing the real business world.

Many prospective members attended our Spring Rush Smoker in January and seemed very interested in becoming a Deltasig. With people like this, we know our chapter will continue to be an outstanding one.

—CLAIRE A. HART

Chocolate cake and smiling Deltasigs set the tone for the Founders' Day celebration of Zeta Upsilon Chapter at Virginia Tech.

Robert Tiedel, Robert Billings, Michael Heavener, and Roland Paquette, left to right, were part of the scoring manpower provided by Theta Sigma Chapter at Florida Tech to the Winter Park Jaycees for their 24 Hour Bike Marathon to benefit Muscular Dystrophy.

## WASHBURN

DELTA CHI CHAPTER at Washburn University is gratified to know that the time it volunteered to the Channel 11 pledge drive was time well spent. Channel 11, Topeka's educational channel, recently held a pledge marathon to raise necessary funds to provide for its future broadcasting. The Brothers devoted their time and effort to this cause by working two consecutive Saturdays at KTWU, the local broadcasting station.

Immediately following this, the Brothers began our annual "Book Exchange" program. In this project we collect the students' used books and sell them during the succeeding enrollment period. It is an effort on our part to earn some extra funds while also creating competition for the University's Bookstore. In addition, the students selling or buying these books benefit directly, too.

Our Ways and Means Chairman, Dennis Hicks, has perhaps the toughest responsibility this semester. He is in charge of this year's Business Day, a joint effort on behalf of the Delta Chi Chapter and Washburn's School of Business. The event is designed to educate our fellow colleagues and the citizens of the community concerning the role of the businessman of today. The cooperation and individual contribution from each of the Brothers has helped to make this day one to be remembered.

We, the Brothers of the Delta Chi Chapter, wish success to each and every Brother of Delta Sigma Pi.

—DARREL G. WARREN

## TEXAS CHRISTIAN

DELTA UPSILON CHAPTER at Texas Christian University ceases to amaze me on how we manage to keep on going from activity to activity without slowing down one bit. Already this semester we have had a fund raising project that proved very successful. Still in the planning stage is our chapter's annual Rose Formal to be held on April 16 at the Green Oak's Inn Ballroom. It promises to be an exciting evening, bringing many alumni and actives together for the traditional crowning of our Rose Queen.

The main emphasis this semester has been placed on our chapter sponsoring the annual "Business Week". This year it will be held in connection with "TCU-Fort Worth Week", with the spotlight being upon the M. J. Neeley School of Business. Many area civic leaders are helping to make this an outstanding event for the entire community. Exhibits, presentations, and guest lecturers will highlight the week's event, beginning the week of March 24.

The Delta Upsilon Chapter wishes all Brothers much success in this semester.

—JOHN W. GOODWIN

## TEXAS-ARLINGTON

ZETA MU CHAPTER has had an exciting semester beginning with a successful rush program which yielded five promising new Brothers of which we are very proud. Congratulations are in order for Roy Cother, Gary Barras, Bob Norville, Alan Mulder and

David Jackson.

Zeta Mu Chapter enjoyed an enlightening professional program schedule with professional tours of the GM Plant in Arlington, the Miller's Brewery in Fort Worth, and various speakers brought to campus proving beneficial to the entire School of Business at UTA. The chapter is also excited about the continuing progress being made in forming an area wide Alumni Club. Paul Weirether and Mike Vinez are doing commendable work towards this end. All interested persons should contact Mike Vinez at (214) 690-1202, Dallas, Texas.

We are looking forward to an even more prosperous Spring semester!

## NEW MEXICO

GAMMA IOTA CHAPTER took advantage of the Winter break to undertake the semester projects. Evelyn Vigil led the firewood sale which had undergraduate members and alumni chopping wood in near-freezing weather. The wood was sold for \$60 a cord. This activity provided an opportunity for Brothers to remain in contact during the break and also came at a time when school work would not be interrupted. Through Roger Gonzales' work with the March of Dimes, Gamma Iota Chapter participated in a Walk-A-Thon for the handicapped. After the walk, some of the Brothers felt that next time the March of Dimes was going to have to march for them!

Diane Frost provided the chapter with an excellent professional program. Gary Cooper, manager of Coronado Shopping Center—one of the newest and largest in the west, spoke on, "Management of a Shopping Center Complex". Cooper provided valuable insight into

the workings of a business that must deal with many individual merchants. We also toured Albuquerque National Bank, which is New Mexico's largest bank. Gamma Iota Chapter was privileged as it was the first group ever to take an extensive tour of the Computer Operations Center. The chapter really got its money's worth as the tour lasted over three hours.

Ward Jones, newly elected president, is optimistic about the remainder of the semester. Ward also adds that now is the best time to start planning for next semester.

—MICHAEL BUSH

## TEXAS-EL PASO

GAMMA PHI CHAPTER in the Fall semester of 1976 has performed its scheduled activities. They began with a "Rush Smoker", on September 23, where the presence of Dr. Lee, Dean of the College of Business at U.T.E.P., and an active member of Delta Sigma Pi, directed a speech to the concurrence.

A week later, we started our pledge education program with five new members in the so-called "Alpha Alpha Pledge Class". They organized some activities during their training, concluding with a Casino Night Party and a breakfast for the active members of Gamma Phi Chapter.

Special consideration should be given to the success of the "Founders' Day Banquet", where such prominent Deltasigs as Mayor Don Henderson, and important executives, honored the alumni, guests from Epsilon Chapter from Las Cruces, New Mexico, and Gamma Phi Chapter active undergraduate members with their presence.

After eight weeks of pledge training we conducted our initiation, having as a result five new Brothers.

With the semester ending, new elections were required and qualified candidates were elected. They are: president, Andy Gonzalez; senior vice president, Armando Martinez; vice president for pledge education, Salvador Diaz de Leon; vice president of professional activities, Mike Avila; secretary, David Engle; treasurer, Sam Hayden; Chapter Efficiency Index chairman, Joe Nebham; chancellor, Joe Osborne; historian, Mario Galdos;

Just after initiation are the newest members of Gamma Phi Chapter at Texas-El Paso. Left to right are Victor Martinez, Armando Martinez, Mike Avila, Mario Galdos and David Engle.

chapter advisors, Garry Blackmon, Richard Soto, Ted Pierce, and Doug Wilbourn. All were congratulated.

Any Brother who requests knowledge of Gamma Phi Chapter, especially if he likes to visit us or get information about the School of Business at U.T.E.P., please write to: University of Texas at El Paso, P. O. Box 131, Delta Sigma Pi, Gamma Phi Chapter, El Paso, Texas 79968.

—MARIO GALDOS

#### ARIZONA STATE

ON NOVEMBER 7, 1976, Gamma Omega Chapter observed its 25th Anniversary at Arizona State University. One hundred and thirty active and alumni members of the chapter attended a dinner at the Adams Hotel in downtown Phoenix. Honored guests were nine of the founding members of the

chapter, as well as Dean Glenn Overman of the College of Business at A.S.U. Grand President Bill Tatum was the featured speaker and inspired several life memberships on the spot, including two of the founders of the chapter. Marvin Sondahl, first chapter president, recalled events of starting the chapter in 1951.

Brother Glen Fernald, manager of the Adams Hotel, added to the gala evening with a surprise anniversary cake which reproduced in perfect detail the fraternity coat of arms. Regional Director Bill Wilson, accompanied by Brother Bruce Collinson, led the group in singing "The Rose of Deltasig" (to the original music!).

Also combined with the anniversary celebration was a review of the semester professional program by Jay Carpenter. High point of the semester was a combined profes-

sional/fund-raising event, a marketing survey for the Arizona State Fair Commission which earned \$1,500.

—CARL BROWN

#### NEW MEXICO STATE

THERE IS ONE key word which characterizes the Epsilon Upsilon Chapter here at New Mexico State University. That word is enthusiasm. The new officers here are considered to be young, but what these officers may lack in long-term experience they make up three-fold in enthusiasm. This May, Epsilon Upsilon Chapter will be graduating many Brothers. The new officers, therefore, plan to work closely with these graduating Brothers so they can draw on their experience and utilize their knowledge. With the loss of many of our Brothers in May, Spring rush '77 plays a more important role than ever. The major focal point this year is in rebuilding and rejuvenating the Brotherhood and the organization into a close-knit group. Epsilon Upsilon Chapter plans to carry this goal into rush '77 by seeking out only those individuals who plan to work hard and contribute towards this goal.

Rush, although important, will not by any means be the only activity Epsilon Upsilon Chapter has in store for Spring '77. Indeed, the calendar of events has already been organized and begun. In January there was the Interim Trip to Phoenix, Arizona, where Brothers of our chapter planned to tour many of the business institutions. Again, Epsilon Upsilon Chapter will be conducting the Seminar for the Advancement of Small Businesses which is of such magnitude that every Brother in the chapter will be involved. This seminar, which has proven to be very successful during the past two years, draws small businessmen from the entire Southern New Mexico area and even as far as Albuquerque. In addition to the seminar, the chapter has many professional meetings planned which include guest speakers as well as professional outings. Also, many social gatherings are planned after the meetings and on weekends which will certainly round out the Spring semester.

Epsilon Upsilon Chapter is looking forward to the remainder of this year with new enthusiasm and a promise for a better chapter, better professional events, and a better Brotherhood.

—CODY R. LESER

#### WESTERN STATE

ZETA KAPPA CHAPTER had another cold but active Winter quarter following the initiation of two women and four men during Fall quarter. Due to our pledge program for Winter quarter we are expecting to initiate at least as many if not more new members this quarter. Among our activities were the annual tobogganing party with the Sigma Sigma Sorority, speakers, movies, tours and the concessions stand at all of the Western State College home basketball games.

Zeta Kappa Chapter is planning its second annual trip during Spring break. Last year 10 Brothers went to Tempe, Arizona, for the break and enjoyed visiting with then Regional Director Bill Wilson. The Brothers also attended some tours and, of course, enjoyed the Arizona sun and fun. Tempe may

once again be the target for Spring break, so watch out A.S.U.—here comes W.S.C.!

—KENNETH OSBURN

#### **NORTHERN ARIZONA**

**ZETA OMEGA CHAPTER** at Northern Arizona University headed a Muscular Dystrophy fund raising program in February. The program involved people of all ages in a 24-hour dance marathon. We hoped the marathon would bring in over \$10,000.00 in pledges. Chairwoman Julie Ralston reports that the necessary support needed to make this year's dance marathon a success was warmly donated by the Flagstaff businessmen and members of the community.

Mark Sandbower, professional vice president, promised an even better professional program for this semester. Last semester, Mark was instrumental in producing an exceptional program for our chapter, and has a long list of events scheduled for the chapter for this semester. If the past is any indication of the future, an unsurpassable professional program is in store for Zeta Omega Chapter.

The Zeta Omega Chapter's 10th Anniversary will provide an excellent way to end the semester. April 29, 1977, marks our 10th birthday. Festivities are in the planning for a grand celebration, and all are invited. If interested, please contact us. We here at Northern Arizona University in Flagstaff would be pleased to hear from you.

**EPSILON THETA CHAPTER** is experiencing another fine semester. This semester President Steve Lindemann and Vice President of Professional Activities Warren Snyder have organized a Career Building Program with the aid of the College Placement Office. The program is a part of our professional activities and includes many speakers from different areas of the business world. These businessmen lecture on the needs of business, and tell us how to prepare ourselves to find good jobs. We are also hearing from alumni on their various careers. This information is very important in deciding on what kind of jobs to seek. The information is so important that Vice President for Pledge Education Guy Walker is making it a part of his pledge education program.

Senior Vice President Mark Coleman has done an excellent job on this semester's rush program. A large number of good candidates have been recruited for pledging.

Secretary Kent Ball is working hard and is keeping the chapter's business well organized. Mark Norris is doing a great job as our treasurer, also.

Chancellor David Kvitka is keeping everyone happy by scheduling our business meetings at a convenient time for all of the Brothers.

The Spring semester is the time for Pioneer Days, an annual week long celebration. Epsilon Theta Chapter is planning to participate again this year. Pioneer Days requires a lot of time, work and fund raising, but the Brotherhood, recognition, and fun make all worthwhile.

This Spring semester is a busy one, with our extensive career program, pledge period, and Pioneer Days. Every Brother is putting forth that little extra effort that will make this semester's activities complete successes.

The Brothers of Epsilon Theta Chapter wish all Deltasigs a very happy and productive year.

—WILLIAM W. WIARD

#### **C.S.U.-SACRAMENTO**

**EPSILON PHI CHAPTER** is entering the Spring semester with a sense of purpose and determination to accomplish more than has ever been done in the past.

The concept of "total involvement" is our theme. Every Brother will be involved in carrying out meaningful functions within the fraternity. With this concept applied, Epsilon Phi Chapter will be able to undertake more activities, do them more efficiently and with less time, and give each Brother unique experiences that will be helpful to him/her in future business and social relationships.

Epsilon Phi Chapter expects to follow last semester's dramatic increase in membership (from 12 members to 31 members) with another successful recruiting period and with a final initiation of approximately 25 new Brothers. Epsilon Phi Chapter would also like to acknowledge the tremendous contributions that the female initiates made towards the growth and progress of our chapter.

Epsilon Phi Chapter has inaugurated a Tutoring Fund of \$150 to be administered and used by the Brothers. The Tutoring Fund concept can be applied in our recruiting, thus alleviating scholastic problems, and demonstrating to the School of Business that indeed we do mean business.

—PETER ENGEL and MARY NOWELL

#### **CAL POLY-POMONA**

**ETA CHI CHAPTER** at California State Polytechnic University at Pomona has had an excellent quarter. After the bumpy road our chapter experienced during the Fall quarter, we've bounced back with an air of confidence and knowledge.

An effort has been made toward rebuilding our internal structure and, also, our inter-fraternity and sorority activities and relations.

A major activity of growing participation among our school faculty, staff and students was our Day at the Races, held at Santa Anita Park in March. A crowd of 60 came clad with money and dreams of more: unfortunately, few, if any, found fortune.

Once again, under the careful direction of Bob Lazenby, our chapter has satisfied the needs of business students with adding and dropping classes in our managing the Add/Drop Center.

As for our social life—WOW! With a week at Lake Tahoe to indulge in the sun and snow, and other activities nearby, we had a fantastic time!! Our thanks to Lane Suyeasu for arranging accommodations and to Bill Wagoner and Frank Mondoc for providing the goodies.

In this newsletter, we'd like to extend a special thanks to Dr. John Fleischans, our chapter advisor, for his continual assistance, encouragement, understanding and sense of humor. Dr. John—thanks!

Upcoming events include our annual Rose Banquet—this year, as always, getting better and better. Our school's annual open house, POLY VUE with the theme "Poly on the Move", is the highlight of our school year, bringing out the best in all.

And from all of us here in the Western Region (especially Eta Chi Chapter), welcome to the West!

—FRANK C. PLUTA

# Be a Life Member of Delta Sigma Pi

Life Members of Delta Sigma Pi are something special and because of this they enjoy certain advantages:

1. Their national alumni dues are paid for the rest of their lives.
2. They receive The DELTASIG four times a year for life.
3. They receive a handsome Life Membership Certificate and Identification Card.
4. Their names are listed on the Life Membership roll of loyalty.
5. They have helped their national fraternity to provide a permanent endowment fund.

To join this special group -

Send your check for \$75.00 to The Central Office, indicating your wish to become a Life Member. The cost can be paid in full or in installments.

Discounts are available to undergraduate members—20 per cent if you join prior to graduation; an additional 10 per cent if your chapter achieves 85,000 points or more in the Chapter Efficiency Index and you exercise the option to become a Life Member before December 31 of that year.

No finer investment can be made by a member of Delta Sigma Pi.

Please indicate size: medium, large or extra large.

(No Order Form Needed, Simply send your request along with your check to: Delta Sigma Pi, 330 South Campus Avenue, Oxford, Ohio 45056)

## ALUMNI REPORT

FROM TIME TO time undergraduates and alumni alike have asked me the double-barreled question: "Why should I continue my association with the fraternity after graduation? What's in it for me?" Disregarding for a moment the fact that that type of self-serving question may be contrary to the Ritual under which all of us were initiated, I would like to take this space to respond to "What's in it for me?"

Continued association with Delta Sigma Pi after graduation offers a unique combination of professional contacts, social atmosphere, and fraternalism. But for me, and for many of my alumni Brothers, the opportunity to make new acquaintances and renew old friendships—fraternalism—is alone worth the "price" of time involved. This was never clearer to me than it was last Fall when I attended several of the Regional Conferences around the country. I had the opportunity to reminisce with friends I hadn't seen for years, and to experience new highs in Brotherhood with the many undergraduates and alumni in atten-

dance.

But it was in Chicago that the real meaning of my fraternity hit home with such impact that I shall not soon forget it. Some of you know that I was in Chicago on business for several weeks last Fall. As such, I had a chance to attend several functions of the Chicago Alumni Club. Once the members found out I was in town, they wined and dined me, invited me into their homes, took me to lunch, football games, and the best night spots (as well as some of the worst!) and generally showed me a great time. They nearly ran me to death and I loved every minute of it. It is highly unlikely that any other organization could have shown me the hospitality and made me feel as much at home as my Brothers in Chicago did. So, to the officers, directors, and members of the Chicago Alumni Club—many of whom I had never met before—thanks again for making me one of you.

Try and tell me that Delta Sigma Pi isn't worth my time and effort!—DIRECTOR OF ALUMNI ACTIVITIES MICHAEL R. MALLONEE

## ATLANTA

A THREE-PAGE holiday newsletter was dispatched in mid-December to all alumni club members, all Kappa Brothers with known addresses no matter where their residence, and all Life Members living in the Atlanta area. This represented a coverage of over 1400 persons. We feel strongly that communication builds interest and generates the kind of enthusiasm that will be infectious in fostering the close ties of renewed fraternal relationships.

Our Fall turnouts were most encouraging and have demonstrated the effectiveness of our in-depth mailing campaigns. At the north area meeting in early October, we saw many new faces, along with a representative group of regulars. The Founders' Day celebration in support of Kappa Chapter provided several additional newcomers to our activities. However, our greatest showing came with the attendance of 94 Deltasigs and wives for the Georgia State University Alumni Association's Retirement Dinner for Brother (Dean) George and Clair Manners. The response of Brothers from every era in Kappa Chapter's history (from K-30 through K-1251) was heartwarming and made for many memorable moments.

For 1977, we planned a couple of additional area meetings, one for February 8 at the refurbished Deltasig Lodge. We attracted a sizeable group of Brothers residing on the east side of the metro area in places like Stone Mountain, Lilburn, Conyers, Covington, Monroe and the surrounding territory. The Kappa Chapter birthday celebration will be a dinner theater party on Saturday, March 6.

You can readily see that "Atlanta Deltasigs are a Bullish Bunch-Getting Ready for '79". Come join us if you live in the Atlanta Metro area.

—ROBERT G. BUSSE

## BUFFALO

BUFFALO ALUMNI CLUB at Buffalo, New York, was reactivated in 1971 after having been inactive for approximately 20 years. Since then its membership has grown to 40 active Brothers.

We proudly extend our congratulations to three of our members. Richard J. Parnitzke was recently appointed Eastern Regional Director. Dick replaces Robert M. Drewniak who transferred to Omaha, Nebraska, and was subsequently appointed by the Board to North Central Regional Director. In addition, Paul Frey was appointed District Director. Best of luck to Dick, Bob and Paul.

This year's special event will be a visit to the Studio Arena Theatre for an off-Broadway performance. Selection of the play has not yet been made. All undergraduates of Alpha Kappa Chapter, including wives and friends, are welcome to join us at a special group rate.

The main objectives of our group are: one, to work more closely with the undergraduate chapter, and two, to make available the experience of past officers and members to help maintain a strong chapter. We are also interested in increasing our membership and invite all eligible Brothers to join the Buffalo Alumni Club. For information about joining, contact either Art Rago (684-2099) or Hank Schenk (684-7322).

—MANFRED P. BONISCH

## CHICAGO

THE CHICAGO ALUMNI CLUB added a new activity this year which proved successful. For the first time we had an evening at the races, held at Maywood Park race track. We also had dinner at the track, and expect that most are looking forward to returning there next year.

Coming up next month is our annual undergraduate program. This year the program will be expanded to include two Chicago area tours during the day, and then the traditional club dinner that evening. We expect a large turnout of undergraduates this year, but we would like at least an equally large turnout of alumni as well. We need all alumni there to help promote alumni club goodwill with tomorrow's alumni. The date presently scheduled is Tuesday, April 26, 1977. Any changes will be noted on the flier that will come out in a couple of weeks. Please do your best to attend the dinner so that we can show our undergraduate Brothers what a truly great alumni club we have in Chicago.

May 14 is the date of our card party, which is a return to an old, old club activity. Get out the old cards and get ready for a blockbuster event! The annual Golf Outing will follow on Thursday, June 2, at the Midwest Country Club. Even if you can't take the day off to go golfing, feel free to come after work for the dinner and election.

July 9 will be a return to a familiar function, the Dinner/Theatre Party, presently scheduled for Drury Lane East in Chicago. This will be a date function. And then starts the count-down to the Grand Chapter Congress in August. Held in Toronto, Canada, this time, we, as usual, expect the Chicago Alumni Club delegation to be the largest alumni group in attendance. Start planning today for what is to be a great experience!

Until our article in the May issue of THE DELTASIG we will leave you with this thought: History is strewn with the wrecks of once great movements that died out when the enthusiasm of their followers died out. Let's keep our Deltasig enthusiasm and loyalty strong and active. If you didn't join the club this year, then we fraternally request that you seriously consider doing so next year. The door of continued benefits is there, but we can't force you to enter. We can only do our best to show you that you should belong, but then it's up to you. Each year at least 150 Brothers join the Chicago Alumni Club, but given the goodwill and loyalty and willingness of all Brothers we should easily be able to double or triple this figure. It won't be easy to get 300 to 500 Brothers to join, but by no means is it impossible. Give us a try!

To contact us simply write us c/o P. O. Box 11314, Chicago, Illinois 60611.

—JAMES L. PRESCOTT

Left to right, Chuck Franz, Elwood Moore, Jim Elderkin, Lou Cosentino, Golden Council member Herb Finney, Vic Scrivo, District Director Sonny Owseny, and Dick Ebert, following a recent Pittsburgh Alumni Club event.

## CRESCENT CITY

COME ONE, COME ALL to the Sixth Annual Crescent City Alumni Club-Undergraduate Basketball Tournament. Yes, Brothers, we're on the ball, so to speak, and everything's ready to go. All we need is you! We expect at least eight chapters from the Southern Region to compete in the tournament, scheduled for late March. Contact Brian Landry or someone in the Club for details. It's a great opportunity to play basketball, meet fellow Deltasigs and generally have a good time. All alumni are invited to watch—free.

Next on the agenda is Uncle Sam Day. We're throwing a tax bash on April 15 for area undergraduates. It's a chance to meet the "over the hill" group and get to know more about alumni life.

In May, the Club promotes itself and those in it with an officer installation banquet and best alumnus award. So, Brothers, if y'all plan to be in the New Orleans area, just drop us a line—newcomers are always welcome.

—J. MALCOLM DICHARRY

## LAKE CHARLES-BAYOU COUNTRY

THE BAYOU COUNTRY alumni club has been chartered! Yes sir, down here in Southwest Louisiana, a new alumni club has been formed. We are located in Lake Charles, Louisiana, the home of McNeese State University and of Eta Tau Chapter. We were chartered last Fall and we are growing fast. As a matter of fact, this past January several December graduates joined our club.

Our charter president is Brother Gus W. Schram III, the Deltasig Undergraduate of the Year for 1976. Other officers are Rogers Sonnier, vice president; Ira Sawyer, treasurer; Ed White, recording secretary; and Tom Baldassari, Corresponding secretary.

For Valentine's Day we had a banquet at the Red Fox Inn in Lake Charles. Our club was privileged to have as a speaker Mr. Warren Waggenspack from Baton Rouge, Louisiana. We would like to thank the Brothers from the Crescent City Alumni Club for sponsoring another fine basketball tournament.

Any Deltasig in Southwest Louisiana who is interested in learning more about our club

may contact Gus Schram III at 433-1021 or Tom Baldassari at 478-1350.

—TOM BALDASSARI

## NORTHWEST INDIANA

THE NORTHWEST INDIANA Alumni Club enjoyed a very active first year in 1976 and the future seems more secure. It is rewarding to see our hard efforts produce such an on-going alumni club. Our January bowling tournament turned out to be a success. It was good to see such a great participation from the alumni club as well as from the undergraduate chapter—Theta Psi. In February the alumni club sponsored a ski weekend. The event turned out to be fun for everyone.

Winter is about over and Spring is just around the corner. In April we will have our undergraduate night and we hope to have all the graduating Brothers join us. Looking further into the Summer, we are planning our second annual golf outing. Wives and girlfriends are invited. Prizes and awards will be given to the good golfers as well as the duffers.

The Northwest Indiana Alumni Club is making plans to attend the Grand Chapter Congress in August. Hopefully, all chapters and alumni clubs will be represented in Canada. It is a great educational experience and every Brother should attend at least one Congress. Hope to see all of you there.

Remember your alumni club or chapter is only as strong as its members. If you don't have a hard working group you will cease to exist. Make a commitment, like Charlie Rolader says, and follow through with it to the best of your ability. You will never regret what you have contributed to Delta Sigma Pi. If you want more information about the club or have any comments or criticisms, write us at P. O. Box 1857, Gary, Indiana 46409. One final comment, the next time you hear from me, I'll be a "happily" married man!

—RAY N. GIACOMIN

## PITTSBURGH

PRESIDENT VINCE DLUGOS, since taking office, has arranged special committee meetings and early in the season a general meeting of all alumni members was held with Brother Walt Schratz introducing the 1976-1977 officers. Dr. Schratz, a former chapter advisor, told the new officers about the importance of their duties in conducting the affairs of the alumni club. The special guest speaker was Mr. Bob Pratt, University of Pittsburgh statistician. He discussed the general business and employment conditions. The Luncheon Committee, with Jim Elderkin as Chairman, has arranged some enjoyable luncheons.

In December, Dick Ebert, Vice President, and his Social-Professional Committee held a Christmas Party at the Marriott Inn. This event was attended by members and their girl friends. The guest speaker was Mr. John P. Lynch, Controller of the County of Allegheny. Our members now are more enlightened on many phases of the county.

—JOHN R. CONLEY

# Greeks Celebrate 200 Years

- . . . . a look to our past
- . . . . a celebration of the present
- . . . . an eye to our future

From across the nation fraternities and sororities joined the pilgrimage to Williamsburg, Virginia, in December, 1976, for the Bicentennial Celebration of 200 years of Brotherhood and service. It was at William and Mary College in Williamsburg that Phi Beta Kappa was founded on December 5, 1776.

During the week of meetings, discussions, and special programs Greek-Letter representatives paid respects to the past, celebrated the present, and took a long look at what the future would hold for fraternities.

As any traveler to Williamsburg knows, the setting was most appropriate for this anniversary. Beyond being the birthplace of Greek-Letter fraternities, the restored village of Williamsburg provided an authentic background for observing the youthful inspiration which gave birth to Phi Beta Kappa. Hearing the history of the area, hearing of the oratory and activities which occurred here just prior to the American Revolution, and observing authentic furnishings and buildings shown by tour guides in authentic costume made one actually feel like a part of the debates and conversations which gave rise to the Revolution.

Margaret Chase Smith, loyal fraternity member, and featured speaker at the luncheon.

During the early part of the week many different groups were holding concurrent meetings. The annual meeting of the National Interfraternity Conference (General Fraternities) was held as were meetings of the National Panhellenic Conference. There were meetings of the Fraternity Executives Association and the National Interfraternity Foundation (both limited to social fraternities). Some individual fraternities held their Board Meetings during the week as well.

There was to be a meeting of the Professional Interfraternity Conference (the Professional Fraternities), however, it was combined with the meeting of the Professional Panhellenic Association (the Professional Sororities) due to small attendance from PIC members. The two groups met for a luncheon and during the afternoon held a discussion forum.

During the PIC-PPA discussion a report from the representatives to the Interfraternity Research and Advisory Council (IRAC) was heard. The main question was what future role the professionals would hold in IRAC since it seemed to many that much IRAC activity was slanted

toward the social fraternities and sororities.

Conversation then turned toward the common problems of the PIC and the PPA. It was shown that the groups could work cooperatively as evidenced by the activities of the Fraternal Alliance for Inalienable Rights (FAIR) which conducted an extensive effort in Washington, DC, fighting the requirements of Title IX as they affect the professionals. The PIC indicated it had hired a Washington monitor to provide timely information on any activities that might affect the member fraternities.

Probably the most important decision to come out of the PIC-PPA discussion was the approval to merge the two organizations into one association of collegiate Greek Letter professional organizations, since nearly all PIC and PPA member groups are now coeducational. FAIR would also be assimilated into this organization as a permanent political action committee.

On Interfraternity Day, which was the actual day of the Anniversary Celebration, Betty Mullen Jones, past national president of Alpha Phi, keynoted "A Look to Our Past"

by recounting the historical relationship between fraternities and universities. She noted that as schools grow increasingly impersonal, fraternities grow increasingly personal, absorbing more and more of the responsibility for the moral and social development of the individual. She said, "As schools become unable because of financial problems to provide extra-curricular activities for the students, fraternities are filling these needs and supplying the training in leadership and character development which are vital to a strong nation."

The organization and founding of Phi Beta Kappa were then related with a narrated slide presentation by Robert Thompson, William and Mary College IFC president, and Donna Szuba, William and Mary College Panhellenic Council president.

Following this presentation, all of those in attendance at the celebration boarded buses for a tour of the Raleigh Tavern where the actual founding of Phi Beta Kappa took place in the Apollo Room.

Histories of the Interfraternity Research and Advisory Council (IRAC), the Professional Panhellenic Association (PPA), the National Panhellenic Conference (NPC), the Professional Interfraternity Conference (PIC), and the National Interfraternity Conference (NIC) were provided by the officers of these organizations.

Margaret Chase Smith, former U.S. Senator from Maine and a member of Sigma Kappa, was the speaker at the Interfraternity Day luncheon. Observing "The Present", she said to the audience, "You are champions of leadership and defenders of excellence, civility, kindness, and friendship. Make these your goals and your concerns."

She said, "How to regenerate the American will is the subject of much study and concern, and fraternities can play a part. They have been targets of the anti-establishment attack and suffered through the period where it became the

vogue to find only fault with our government, the establishment, and our way of life. Too many universities and colleges degenerated into a sanctuary for the fault-finders. Grades were done away with or so highly liberalized, 'cum laude' became the rule instead of the exception.

"Smothering a spirit of excellence or eroding a desire for excellence can be only the beginning of decadence of society," she warned, as she cited a trend indicating an alarming decline of democracy and freedom in the world with less than 20 per cent of the world living in freedom today.

"An Eye to Our Future" was the theme for the afternoon session. The highlight was the report given by the American College Fraternity Bicentennial Commission. The commission of 90 fraternity, collegiate and university administrative leaders met in two sessions in July, 1976, and again in Williamsburg prior to the Bicentennial Celebration. The commission has authorized three papers concerning the future of the fraternity movement and higher education which will be available in 1977.

Speaking for the commission, Dr. Thomas C. Schreck, dean of student services, Indiana University, William P. Schwartz, executive director of Sigma Alpha Mu, and Dr. Herbert E. Smith, assistant dean of students at Indiana University, reported the following seven critical issues which fraternities will have to face by the year 2000:

1. How well it can foster the personal development of each of its members.
2. How well it can adapt itself to whatever changes may come about in the academic community.
3. How well it can accommodate a more diverse membership.
4. How well it can involve its alumni in the life of the chapter.
5. How well it can transmit its heritage, ideals, values, and

principles.

6. How well it can carry out an ethic of service.
7. How well it can sustain itself without having to rely on a chapter house as the center of its activities.

The highlight of the celebration came with the closing banquet. Over 400 people were in attendance representing the 50 social fraternities, 26 social sororities, 14 professional sororities, and 21 professional fraternities in the nation.

The brilliantly uniformed Queen's Guard of the College of William and Mary presented the colors. The costumed Williamsburg Madrigal Singers entertained during the banquet while the banquet hall was festooned with the banners of the four conferences and the flags of the individual member fraternities and sororities present.

Nationally prominent fraternity members were honored for outstanding achievement and leadership in their various fields by Interfraternity Research and Advisory Council Awards. The fields and their recipients were:

1. Arts, Edith Head, Delta Sigma, costume designer.

2. Arts and Education, Aaron Copeland, Phi Mu Alpha, composer.
3. Business, Charles Luckman, Tau Beta Pi, Theta Tau, architect and developer.
4. Education, Virginia Y. Trotter, Alpha Delta Pi, Omicron Nu, Sigma Xi, U.S. Department of Health, Education and Welfare official.
5. Education and the Media, Joan Ganz Cooney, Kappa Alpha Theta, president of Children's Television Workshop.
6. Government, Margaret Chase Smith, Sigma Kappa, former U.S. Senator from Maine.
7. Government and Arts, Ronald Reagan, Tau Kappa Epsilon, former motion picture and Television actor, former governor of California.
8. Government and Education, John G. Tower, Kappa Sigma, Alpha Kappa Psi, U.S. Senator from Texas, past national president of Kappa Sigma.
9. Leadership and Service, Gerald R. Ford, Delta Kappa Epsilon, President of the United States.
10. Media, Walter Cronkite, Chi

A street scene in Colonial Williamsburg.

Phi, Sigma Delta Chi, television news correspondent, and Sylvia Porter, Phi Beta Kappa, Phi Sigma Sigma, Theta Sigma Phi, financial writer.

11. Profession and Government, Tom C. Clark, Delta Tau Delta, Phi Alpha Delta, retired U.S. Supreme Court Justice.

12. Science and Education, Neil A. Armstrong, Phi Delta Theta, former astronaut and University of Cincinnati Professor.

On hand to receive their awards were Margaret Chase Smith (presented at the luncheon), John Tower, Tom Clark, and Virginia Trotter.

Graciously substituting for President Ford was Senator John Tower who gave the banquet address. Noting the spirit and inspiration of the gathering he remarked, "Tonight we have something to smile about. We have turned the corner, and we are assured of the viability of the system. We have survived the opposition of administrations, depressions, and wars; we have liberalized things we should have liberalized; and abolished things such as hazing that should have been abolished.

"We've grown up, adjusted to the times. We have been through a great deal of travail. The potential of the Greek Letter movement is greater than it ever has been, but we must be sufficiently dedicated and must maintain our sense of responsibility to the academic community. The fraternity system is a stabilizing influence on campuses; one out of proportion to its numbers", he pointed out, as he asked, "Why defeat a system that does so much for so many?"

To commemorate this anniversary celebration, a handsome medallion was struck in bronze and presented to each participant as a memento of the occasion.

The hundreds of national leaders of sororities and fraternities who had gathered for this 200th Anniversary observance could say with pride that they had reflected on the past, celebrated the present, and looked to the future as they returned to their respective walks of life with a renewed inspiration to work for the fraternity system and with a revitalized enthusiasm for their own organization.
